LOS ANGELES DAILY HERALD.

VOL. XXIX. MONDAY MORNING, JANUARY 9, 1888---TEN PAGES. NO. 99.

LOCAL EVENTS.

Extension of the Electric Railroad System.

THE SPECIAL SCHOOL TAX.

The A.O.U.W. Building Association Masonic Banquet and Other Interesting Happenings.

One of the principal attractions of this city is its electric road system, which is being extended in several directions by its enterprising directors and its manager, Colonel C. H. Howland. At the present time the racks are laid from the Plaza to Pico Heights, a distance of nearly six miles, but at the present time the cars start from the corner of first and Los Angeles streets to Pico Heights. They will be run through to the Plaza as soon as the poles and wires are erected. Recently the company has laid the track and placed wires in position on Maple avenue to Jefferson street, a distance of about two and a half miles. This line will shortly be running and will open up a new part of the city. Another branch leaves the main line at the corner of Seventh and Wall streets and runs east as far as the Santa Fé track. The company has in contemplation the extension of this branch across the river and into Boyle Heights, where it will bring a number of people close to the center of town. The present power used in manipulating these cars is the original thirty-horse-power engine, which runs two fifty-horse-power dynamos. In order to meet the requirements the company have just planted a new Cuzner engine of two hundred horse power, a new Hazelton boiler of one hundred and twenty-five horse power, and are having a second one made of like dimensions and style. These with the two new dynamos will well carry along the motors and cars with ease and can be crowded to twenty at one time. The company is working men day and night to complete the improvements. The engines will be used to pump water in connection with the generator. They are now running a pump with a capacity of four thousand gallons an hour, and in order to meet the demand of their additional customers they are erecting a new pump with a capacity of six thousand gallons per hour. Some even in this age of the world where electricity is so commonly used, have a very faint idea as to how the cars are moved. This was all explained yesterday to a HERALD reporter by one of the foremen of the electric works.

The Daft electric machine is used, which is similar to the one used by the electric light system.

The electricity is generated in the engine room and is thence conducted along the track by the "positive," or inside wire, through the trolley to the apparatus in the motor, which is similar to an engine, and receives the electric current through a throttle as a steam engine would receive steam. While steam would force the machinery in motion, the electricity acts in an opposite way, doing its work by attraction, or magnetism, and after it has once done the work it is not exhausted as steam, but returned to the generator by the negative wire, where it is regenerated. The cars are very easy and commodious, and when this company has completed its roads, it will have one of the finest systems in Southern California.

SPECIAL SCHOOL TAX.

The Opinion of the District Attorney.

The District Attorney has filed the following opinion on the special school tax:

To the Honorable Board of Supervisors of Los Angeles County:

GENTLEMEN—In response to your inquiry as to whether or not the Assessor of this county is required by law to collect special school tax on personal property, I have to say that by Section 2830 of the Political Code it is made his duty to collect all the taxes on all personal property when in his opinion such taxes are not a lien upon sufficient real property to secure the payment of same.

By section 1830 of same code the trustees of school districts are empowered to call an election in their districts for the purpose of deciding by ballot whether or not a tax shall be raised for certain school purposes in such district. The sections following section 1830 provide for the manner of holding and conducting such election, and if it be certified to the Board of Supervisors that a majority of the votes cast at such election were in favor of such tax, then and in that event (as appears from section 1837 of the same code), it becomes the duty of said Board at the time of levying the county taxes, to levy a tax upon all taxable property in such district to raise the amount so voted in said district, and the taxes as levied by the Board are to be computed and entered upon the assessment roll by the County Auditor, and collected at the same time and in the same manner as State and county taxes.

Such election by the school trustees amounts to nothing until the tax is levied by the Board of Supervisors. When such levy is made then the collection of the tax is placed upon the same footing as other county taxes are and I am unable to arrive at any other conclusion than that such tax (as to the collection thereof) is to all intents and purposes treated by the statute as a county tax, although levied upon only one portion of the people of the county, but expended for their sole benefit.

I am somewhat confirmed in this opinion by the fact that no other officer, it seems to me, is indicated by the statute to perform this duty, and as the county though its Board of Supervisors furnishes the machinery for the levying and computing of such tax and entering same upon the assessment roll of the county by the County Auditor.

It seems to me that the county is the guardian or trustee of all such funds, and the officers are to discharge all the duties concerning same necessarily involved in the levying, computing, entering same on the assessment roll, collecting and paying over the said fund to the school district which has voted to pay the same, for a specific purpose [as appears by Section 3820 of the Political Code] to collect the taxes on all personal property. I can arrive at no other conclusion than that it is his duty to collect special school tax on personal property.

With reference to your second inquiry, "if personal property tax for school purposes, specially laid, be not paid, what remedy has the county?" I have to say that this appears to me to be the more difficult question of the two.

The levy of a tax by the county on any property creates a judgment and lein thereon. When this lien is created on real estate the county does not collect the tax for several months after the lien is created, but there is a provision of the law with reference to the collection of taxes on personal property to the effect that in cases where the tax is not a lien on real property the assessor may collect same by seizure and sale of the personal property on which such tax is a lien. If this is done where it can be done there will be but little personal property returned delinquent. If, however, this is not done, such personal property is liable to be lost sight of or removed, in which event the tax will be lost unless civil actions be brought to recover the amount of the tax, which course I deem impracticable.

Every tax on personal property is a lien on the real estate of the owner whose property is taxed, but if he owns no real estate the lien then rests on his personal property only. Such tax has the effect of a judgment against the owner, and the lien on his property has the effect of an execution levied on such property, and the lien remains until the payment of the taxes, or for three years; but it is generally of no practical effect if the tax is not speedily collected, because of the transitory nature of such property and the great liability of losing its identity.

I am of opinion that, as a practical question, if personal property tax which is not secured by a lien on real estate be not collected by the Assessor, quite a very small proportion of this tax will ever be paid by such taxpayers.

I am quite sure that the best course to pursue is to see that the Assessor does his duty in this regard, and if he fails to do so, to proceed against him for a neglect thereof.

Respectfully,
J. R. DU PUY,
District Attorney Los Angeles County.

U. S. CIRCUIT COURT.

The Calendar of Cases to Be Called This Morning.

The following cases will be called in the United States Circuit Court this morning:

United States vs. J. G. McCallum et al.; for the plaintiff, United States Attorney; for the defendant, J. G. McCallum.

United States vs. C. G. Renfro; for the plaintiff, United States Attorney; for the defendant, W. D. Grady.

David Cahn vs. Jose Maria Rochier; for the plaintiff, Fewald, Cope & Boyce and Stanley, Stoney & Hayes; for the defendant, George Pearce, J. T. Richards and Rodgers & Munday.

Sarah H. Dimmick vs. A. B. Chapman et al.; for the plaintiff, Wells, Van Dyke & Lee; for the defendant, Bicknell & White.

F. J. T. Hutchinson vs. Rafael Machado; for the plaintiff, Glassell, Smith & Patten; for the defendant, Lee & Scott and F. H. Howard.

F. J. T. Hutchinson vs. Andres Machado: sor the plaintiff, Glassell, Smith & Patten; for the defendant, Lee & Scott and F. H. Howard.

Henry D. Harrison vs. Peter Ulrichs et al.; for the plafntiff, Willian Matthews, Wells, Van Dyke & Lee; for the defendant, Chapman & Hendrick, Rhodes & Barstow and J. W. Towner.

Moise Kahn vs. Alexander Weill; for the plaintiff, J. T. Richards, George Pearce, Rodgers & Munday; for the defendant, Stanly, Stoney & Hayes.

Southern Pacific Railroad Company vs. A. H. Hiatt; for the plaidtiff, Joseph D. Redding; for the defendant, Jacobs & Burns.

John P. Jones vs. H. J. Wollacott; for the plaintiff, Wells, Van Dyke & Lee; for the defendant, Bicknell & White.

Southern Pacific Railroad company vs. David R. Brown, et als.; for the plaintiff, Joseph D, Redding; for the defendant, Graves & O'Melveney, A. B. Paris, C. W, C. Rowell, Byron Waters.

Southern Pacific Railroad company vs. Nathaniel Bray; for the the plaintiff, Joseph D. Redding; for the defendant, C. W. C. Rowell, Byron Waters."

J. W. Calkins et al. vs. W. F. Johnson; for the plaintiff, Brousseau & Hatch, and R. B. Canfield; for the defendant, B. F. Thomas.

Isaac L. Hewitt vs. Warren Story et als.; for the plaintiff, Rowell & Rowell, John A. Wright; for the defendant, H. C. Rolfe, George E. Otis, Byron Waters.

Malcolm Macdonald vs William McLean; for the plaintiff, Finlayson & Finlayson; for the defendant, Graves & O'Melveny, Chapman & Hendrick.

Peter Wall et al. vs. J. B. Dutton; for the plaintiff, Joseph D. Redding; for the defendant, F. R. Willis.

L. B. Spencer et al, vs. Millard F. Leroy et al.; for the plaintiff, Smith & Patton, Sprague & Carter; for the defendant, Barclay, Wilson & Carpenter, Chapman & Hendrick.

In the District Court the following cases will be called for trial:

United States vs. Leonardo Aguilar.

United States vs. Chas Lislinger.

United States vs. Patrick Cody.

United States vs Winfield Scott Saunders.

Francisco Audonagin vs. H. C. Nelson.

BUILDING ASSOCIATION.

It Determines to Erect a Substantial Structure.

The A. O. U. W. Building Association, composed of members of East Los Angeles Lodge No. 230, held their annual election Saturday, the following officers being elected: President, W. S. Hurlbut; Vice-President, C. H. Creachet; Secretary, Robert Sharp; Treasurer, C. D. Howery.

The association is now one year old and the members have now under course of erection a large, three-story brick building on the corner of Downey avenue and Daly street. It will be arranged for two large store rooms on the ground floor, offices on the second and a large hall, together with reception rooms and reading rooms on the third floor. Besides this fine property they have buildings in Glendale, and in various other places in the country. The members of the association are deserving of much credit, having commenced the work under unfavorable circumstances and small exchequer, but by energy and continued and determined effort, they have reached the present prosperous status.

"Rene" To-Night.

At the Grand Opera House this evening, William Redmond and Mrs. Thomas Barry, supported by a good dramatic company, will present for the first time in this city the spectacular production of the romantic drama of *René*, a play which deals with the stirring Huegenot times and the massacre of St. Bartholomew. The romantic incident pictured by Millais, and known as "The Huegenot Lover," forms the thread on which is strung a charming love episode and a resulting drama filled with striking situations and effective tableaux. Mr. Redmond is an English actor who has made this country his home, and for several years previous to his starring tours was leading man at the Boston theatre. When in London he was solicited as leading support for Booth during that actor's English engagement, and the *Era* said of him: "He is the only histrion who ever divided interest with the great American actor." Mr. Redmond is essentially an actor of the romantic type and fitted by form and figure for that line of business. Mrs. Barry comes of an old acting family, and for years filled leading positions at the Boston Theatre, and also a season at Wallack's in New York, and is an actress of a high order of merit and thoroughly conversant with all the minute details of stage art. Incidental to the play of *Rene* are introduced some charming gipsey dances and also the famous grotesques, the Rinaldos, in their wonderful and amusing specialty entitled the "Revels of the Zingari." The play will be given every evening during the week and at the matinee on Saturday. The stars and their play come highly recommended by the press of all the cities where they have appeared and no doubt will receive liberal patronage from the appreciative theatre goers of this city.

Masonic Banquet.

The mystic order of the shrine from San Francisco came down here and gave a banquet last night in the Masonic Hall to the Masons of Los Angeles. The following were present from San Francisco: C. J. Kerrigon, Grand Master; L. M. Lichfield, Chief Robin; Hyram T. Graves, Assistant Robin; Franklin H. Day, Grand Potentate elect and High Priest and Prophet; John H. Gray, Oriental Guide; T. M. Buss, 1st., Ceremonal Masted; H. A. Palmer, 2nd., Ceremonal Master; Peter Dene, Illustrious Marshall; Wm. B. Miller, Captain of the Guard; H. Smith, Outer Guard; Wm. J. Younger, Fred M. Innes, Walter Good, W. H. Brown, Mrs. Kennyon, Mrs. Hiut, Mrs. Bass.

Twenty-five were invited at the meeting.

The following of Los Angeles were present: T. H. Ward, Freeman G. Teed, Geo. C. Knox, H. A. Parcels, C. H. Dunsmore, T. L. Hanson, M. A. Higgins, Franklin Jordan, A. F. Mullara, Chas. Bell, S. K. Lindly, Geo. Gillson, Geo. W. Laurence, Otto Brodtbeck, John McIlmoil, S. S. Salisbury, John O. Bennett.

Sons of Veterans.

The installation ceremonies of the Sons of Veterans, Gen. Lyon Camp No. 1, were held Saturday night at Grand Army Hall, in the McDonald Block. After the opening services, officers for the ensuing term were duly installed with the usual entertaining ceremony which accompanies the installation of officers of the Sons of Veterans. C. J. Kelly, commandant acted as installing officer. The following are the names of the officers who were elected: T. M. Gilbert, Captain, re-elected; Francis Eastman, First Lieutenant; J. A. Mediar, Second Lieutenant; William F. Gilbert, Chaplain; E. L. King, Sergeant; C. L. Easton, Quartermaster; L. Bennett, Sergeant of Guard; J. E. Wise, Color Sergeant; E. S. Hamilton, Principal Musician; T. D. Johnson, Corporal of Guard; L. C. Wells, Camp Guard; William Phelan, Picket of Guard.

Cathedral Music.

At the Cathedral yesterday Millard's mass in G was excellently rendered by a well-trained chorus and a number of fine solo voices. The principal solo of the mass was sung by Mrs. O. W. Childs with great power and expression. Prof. F. Bornemann sang a solo for the offertory, showing a baritone voice of rare occurrence. It was very powerful and at the same time sympathetic, showing him to be an artist of the highest order. At vespers at 7:15 P. M. Mr. Bornemann sang a duet with Mr. Hanrahan with remarkable effect. An effort is being made to induce him to make his home in Los Angeles instead of San Francisco. A. G. Gardner officiated at the organ.

Undelivered Telegrams.

The following is a list of the undelivered telegrams at the Western Union Telegraph Office, January 8th, 1888, at 10 P. M.: Phineas Sprague, Dr. Davis G. McGowen, J. S. Galbraith, J. E. Curtis, A. J. Flood, C. B. Frederick, Ida Ranpear, Mary E. Collins, John S. Bauer, J. Colbeck, 2, Rouse & Curtis, C. J. Shepherd, J. A. Gordon, John Thill.

A Tobacco Fiend.

SAN FRANCISCO, January 8.—The store of H. Rosenthal, a tobacconist, was entered this morning. A case of one hundred red felt Turkish smoking caps, 150 imported meerschaum pipes and about 25 pounds of finest quality of Turkish and Russian cigarette tobacco was taken.

To See His Work.

PARIS, January 8.—DeLesseps goes to Panama in March next.

TWO LETTERS.

Secretary Lamar Tenders His Resignation.

SPRINGER ON TERRITORIES.

The Leland Hotel in Chicago Has a Natural Gas Well in Its Cellar.

[Associated Press dispatches to the HERALD]

WASHINGTON, January 8.—Secretary Lamar yesterday tendered to the President his resignation as Secretary of the Interior, and it was accepted. The formal resignation, it is understood, will not go into effect until noon of Tuesday next.

The following is a copy of the letter of resignation and the President's reply:

WASHINGTON, January 7, 1888.
President Grover Cleveland.

DEAR SIR—When, some months ago, you invited me to accept a judgeship in the Supreme Court, you expressed the wish that as the court was not in session, I should postpone the resignation of my present office until the meeting of Congress allowed you to send my nomination to the Senate, and that there were certain matters before the department inaugurated by me which it was desirable I should close before leaving. As I would have been very reluctant to take a place upon the bench until your nomination has been confirmed by the Senate, I cheerfully consented to your request. My nomination has now been submitted to the Senate, and recognizing both their right and duty to subject its fitness to the most critical examination, I would still wait in my present position pending their decision, but I think that I am warranted in supposing that a final decision may be delayed for some time. As you have at the same time nominated my successor in this department and his successor in the Postoffice Department, this delay may to some extent embarrass the administration of public business in the departments mentioned. To avoid such an embarrassment and to leave before the Senate in its final judgment upon my nomination, the sole question of my fitness for the position, disassociated from any other nomination and unaffected by any other considerations, I now respectfully ask you to accept my resignation as Secretary of the Interior, which I hereby tender. In terminating my relations to you as a member of your official family, I desire to express my grateful sense of the obligations I am under to you personally for your consideration and kindness, which have always characterized your treatment of me, and for the generous confidence and support which you steadily have given me in the trying and arduous administration of this department. I shall always be proud to have been associated with the honorable record you will have upon the page of your country's history. Sincerely, L. O. C. LAMAR.

The President replied as follows:

EXECUTIVE MANSION,
WASHINGTON, January 7th.

MY DEAR MR. LAMAR: When I determined to nominate you for a position upon the Supreme Court bench, the personal gratification afforded me by the tender to you of so honorable and suitable a place, and the satisfactory conviction that that important executive duty would be performed well, led me almost to forget that my action involved the loss of your conscientious and valuable aid and service in the Cabinet councils, which, for nearly three years, I have so much enjoyed and appreciated. Your note to-day forces me to contemplate this continuance with profound and sincere regret, but since I know the separation you now insist upon arises from that conception of public duty which always so entirely guided your conduct in our official relations, I am constrained to accept the resignation you tender, hoping that it only anticipates your entrance upon the discharge of higher and more congenial functions than those now relinquished. What I have thus far written seems very formal indeed. I intended this because I am sure that the close confidence and relations of positive affection which have grown up between us need no expression or interpretation; and yet I find that it is utterly impossible for me to finish this note without assuring you of the things which have characterized your conduct and bearing in the position from which you now retire. All your devotion to your country and your chief, your self-sacrificing care and solicitation for the public interest, the benefits which your official services have conferred upon your fellow countrymen, and all the affection and kindness so often exhibited toward me personally, I shall constantly remember with tenderness and gratitude. Yours very sincerely,

GROVER CLEVELAND.

CONGRESSIONAL CUMMITTEES

What They Will do Next Week.

WASHINGTON, January 8.—The Education bill is the Senate's unfinished business for to-morrow and is likely to remain so during the week. An effort will probably be made by some Senators, not members of the judiciary committee, to reach an understanding in the Lamar case, should the committee not act upon it to-morrow, as they are tired of receiving an answering letters of inquiry and advice on the subject, and are desirious of having the matter out of the way. It is not expected that any measure of great public interest will come before the House this week. A great many bills introduced last Wednesday have not yet been printed and the more important committees have little as yet to consider and nothing to report. Monday will be devoted to the introduction of bills but no general tariff bill, formulated to meet the views of the majority will be presented.

NATURAL GAS.

The Leland Hotel Has a Supply.

CHICAGO, January 8.—The water fountain in the Leland Hotel, which is supplied by water from an artesian well 125 feet deep, ceased flowing a few days ago. The hotel engineer diagnosed the case as one of natural gas, and investigations proved his theory correct. By aid of a roughly constructed apparatus a steady flame was produced. The Leland Hotel is near the lake and two miles from Cook's brewery, where gas was discovered last week.

A WATER QUESTION.

The Mexicans are Raising a Point.

SAN FRANCISCO, January 8.—An El Paso special says that the city has just completed, what is known as the Waring system of sewerage and which empties into the Rio Grande about two miles below the town. The City Council of Paso Del Norte has drawn up a complaint alleging that the El Paso systems were laid through land belonging to Mexico, although on this side of the Rio Grande, which has changed its channel, that the river is the international boundary, to the waters of which each country has an equal right, but which neither may pollute, and that the owners along the banks have riparian rights to the water in its original purity. This complaint has been forwarded to the Governor of Chihuahua and by him to the national Government at the City of Mexico. Senor Mariscal then obtained a statement from the Mexican Consul in El Paso and has forwarded the papers and instructions to Minister Romero at Washington to lay before Secretary Bayard.

THE LAST OF THE TRIO.

Simon Hamberg Arrested In Montana.

SAN FRANCISCO, January 8.—Chief Crowley received a telegram from the Marshal of Butte City, Montana, stating that Simon Hamberg had been arrested there and would be held pending the arrival of an officer from San Francisco. Hamberg is wanted for complicity in a swindle whereby F. M. Parker, a ranchman from Oregon, was fleeced out of about $11,000 in this city. Pilcher and Neustodt, his confederates, were arrested in this city on Saturday and are now in custody.

TACOMA'S RAILWAYS.

Two Electric Road Franchises Granted.

TACOMA, January 8.—The first street railroad in Tacoma now being constructed on Pacific avenue, will be finished during the present month. Nelson, Bennett and associates received the franchise. The motive power will be electricity. Yesterday a franchise to operate an electric street railway from the center of the city, southward to Oakes' addition, three miles distant, was granted by the city council to Radebaugh and others.

The Giant's Beaten.

SAN FRANCISCO, January 8.—St. Louis 1; New York 0. Philadelphias 9; Chicagos 3.

The St. Louis Browns and the New York Giants played one of the best games ever seen on the California diamond at Haight street grounds to-day. It was the first of a series of three games between the two clubs The penetrating cold weather had no effect on the crowd which filled the grounds. The game was a close one throughout. Brilliant plays were general, and base hits very few. Runs were fewer; the only one made was in the second inning, when Dave Foutz entered over the plate. The fielding of both teams was of the finest character, and Richardson carried off the honors. King pitched a masterly game, striking out seven of the New Yorkers, and holding them down to one hit of a very scratchy character. Van Haltren and Brown were the battery for the Gothamites, the Browns succeeding in getting but six scattering hits off the former's delivery.

Their Ambition Will be Gratified

WASHINGTON, January 8.—Springer, chairman of the Committee on Territories to-day said: "Very probably enabling acts will be passed for some Territories, that is we may pass an act enabling some Territories to adopt state constitutions and construct the machinery of a state government, prepatory to their recognition as states.

The admission of a new State is a very important matter and cannot be done on mere application or on an arithmetical basis. Somehow the impression got abroad that a Territory must have a certain population to qualify it for admission. There is no law and no custom about it. The admission of a new state is entirely a matter of Legislative discretion. It is within the power of Congress to erect "No Man's Land" into a state and admit it into the Union. The State of Illinois was admitted when she had less than 40,000 people. Dakota has over 600,000. Congress, in its discretion, may exclude Dakota and may admit "No-Man's-Land."

General Terry Ill.

CHICAGO, January 8.—Colonel H. C. Corben stated to-night that General Alfred Terry is seriously ill at the Grand Hotel in New York. "I don't think General Terry is in any immediate danger," added Colonel Corben, "but I fear his disease will ultimately prove fatal. I should say he is in about the same condition as Secretary Manning was for a long time."

The Last Honors.

SAN FRANCISCO, January 8.—C. W. Beach, a member of the former Board of Education, died last Saturday at Monrovia, Los Angeles county. His remains will arrive Tuesday and will be met at the Sixteenth-street station, Oakland, by the Golden Gate Commandery No. 16, Knights Templar, and George H. Thomas Post, G. A. R. The body will be taken to the residence of Judge Yule.

A New Volcano.

NOGALES, A. T., January 8.—San Martin peak, in the State of Vera Cruz, has been belching forth dense smoke for some time, and it is thought that the mountain will become an immense volcano.

A Mysterious Murder.

FORT JONES, Cal., January 8.—Some excitement has been caused at Oro Fino, eight miles from here, by the sudden death last night of an adopted orphan girl 11 years of age in the family of F. Carter under alleged suspicious circumstances. Bruises were found on her head and body and her neck was dislocated. The Coroner's jury will investigate the case to-morrow.

THE BANDIT BERNAL.

A Brief Biography of the Robber Chieftain.

SAN FRANCISCO, January 8.—A telegram in Spanish, dated Cualaicon, Mexico, January 6th, received here by W. Loaiza from General Francisco Canada, Governor of Sinaloa, confirms the reported death of Bernal. The bandit was born in the State of Sinaloa, of poor parents. He received a fair education. But little is known of him until the revolution of 1877, when Colonel Ramirez captured Mazatlan, holding the city for several days, when he was overpowered and shot. Bernal was a lieutenant in Ramirez's regiment, but escaped and disappeared until eight years ago, when he became the leader of the band of robbers operating in the Sinaloa mountains, from which time he has terrorized an extensive territory in Sinaloa, Durango, Zacatecas and Jalisco, having his strongholds in the fastnesses of the Sierra Madres.

IN FAILING HEALTH.

Emperor William Somewhat Worse.

BERLIN, January 8.—Dr. Bramanns is about to return from San Remo, as another operation of tracheotomy on the Crown Prince is not likely to be necessary.

Emperor William remained in bed all the morning. He did not appear at his favorite window. His pains were relieved on Saturday by the injection of morphine. The drug caused debility and a loss of appetite and the Emperor will be unable to go out for a week.

LIKE CURES LIKE.

Using Convicts to Fight Bandits.

NOGALES, A. T., January 8.—The Northern Sonora bandits have been chased by the troops into the State of Chihuahua, and the Governor will at once send a body of troops to the place where the bandits crossed the line. A large number of convicts from the Guadalajara penitentiary have been sent to Cosala to fight the remainder of Bernal's band.

The Reading Trouble.

NEW YORK, January 8.—It was decided at the conference in Jersey City last night between representatives of the various trades involved in the Reading strike, to order the men out of the Wyoming mines, which will practically stop all work in the Anthracite coal region. The Knights of Labor will fight the strike to the end. The closing of the Wyoming mines would result in 1000 men being thrown out of work from the want of fuel to run the factories and mills.

STRONG RESOLUTIONS.

NEW YORK, January 8.—A meeting of the Central Labor Union was held to-day. Upon the motion of representatives of the mixed trades a section of the resolution was adopted denouncing the Reading Railroad Company for causing the great strike of the coal miners by which the welfare of the entire population has been affected in raising the price of coal. The support and sympathy of the Central Labor Union was pledged strikers.

THE WOMEN AIDING.

READING, January 8.—A survey of the strong mining towns showed that the women are just as enthusiastic for the strike as the men. In many cases where the husbands were lukewarm, the wives urged them to strike. It is estimated that miners make a voyage aggregating between five, and six hundred dollars a year. Nearly all of them have large families to support.

An Extended Franchise.

NOGALES, A. T., January 8.—Secretary of State Manuel Romero Rubio, of the City of Mexico, on the part of the Mexican Government and John Frisbie, a former California banker and real estate owner, of Napa county, California, representing the Pacific Mail Steamship Company, have signed articles extending the concession for two years of the above named company from January 1st, 1888.

A Socialistic Success.

CHICAGO, January 8.—At the annual election of District Assembly No. 24, Knights of Labor to-day, George Schilling, the Socialistic candidate for Master Workman, was elected by a vote of three to one. The Executive Committee is composed wholly of Socialists. District No. 25 has jurisdiction over all the Knights of Labor in Chicago except those belonging to the National District Assemblies.

Truckee Topics.

TRUCKEE, Cal, January 8.—Constable Upson, of Reno, arrested James W. Simmons here to-night, on the charge of grand larceny committed in 1886.

The thermometer last night was twenty-three degrees below zero.

Two hundred freight cars arrived to-day. There are not enough engines to handle the business.

Gamblers Captured.

SAN FRANCISCO, January 8.—Twelve policemen raided a gambling den last night, capturing eighteen colored and five white men. Seven escaped through a back window, one of whom is believed to have been seriously injured.

Asphyxiated By Gas.

SAN FRANCISCO, January 8.—Paul Kingston was found dead in bed in a lodging house of this city last night, having been asphyxiated by gas from turning the key of the gas jet too far around.

Judge Lovell Waylaid.

TUCSON, A. T., January 8.—Judge Wm. Lovell was assaulted last night by robbers on his way home. His skull was fractured. He was robbed of $70. He lies in a critical condition.

Death of Professor Price.

LONDON, January 8.—The death is announced of Bonamy Price, M. A., Professor of Political Economy in Oxford University. He was 80 years old.

WHO IS TO BLAME?

The Governor Makes Another Appointment.

COAL FAMINE THREATENED.

A Chinaman Tumbles From a Roof to the Ground and Acts Like a Dog.

[Associated Press Dispatches to the HERALD]

SAN FRANCISCO, January 8.—P. A. Finegan who last January was appointed one of the twelve directors of the State Board of Agriculture and who qualified before Notary Hamil of this city two days after, was much surprised by a telegram from Sacramento that Governor Waterman had appointed Fennis Feskins, of Rockland, in his stead, on the ground that Finegan never qualified. The latter said to-night that he could not account for such a proceeding unless his oath of office, filed at Sacramento, had been stolen away, as he had documents to show that he properly qualified. He proposes to test the matter in the courts.

COAL IN DEMAND.

A Great Reduction in Coal Shipments.

READING, January 8.—The run of coal down the road since midnight has been but 500 cars. Three weeks ago to-day there were shipped through this city 6800 cars. Navigation closed in the Schuylkill canal on December tenth, and about two dozen boats, engaged in the coal trade, each containing several hundred tons, became icebound. It was not expected that this coal could be moved before spring, but now every pound has been brought up. The information received at the company's office to-night is that at to-day's meeting, the strikers showed no break in numbers.

A BIG TUMBLE.

A Chinaman Falls from the Fourth Story.

SAN FRANCISCO, January 8.—Officer Parrotte was astonished this afternoon to see a Chinaman drop from the roof over the fourth story of a building, catch on to the Joss house balcony, and drop again to stop on a tea sign, and thence swing to the ground, having come the full length of the block over the housetops. the officer had hardly time to understand the nature of the proceedings when the man sprang to his feet and and unsheathed a large cheese knife. The officer rushed upon him and after a brief struggle secured the knife. He was unable, however, to hold the prisoner, and dropping on all fours, the Chinese made off, running like a dog and barking viciously, to sustain the fact. The officer at once started in pursuit, and after a long chase succeeding in running him into a Chinese theatre, where he was captured. It was found he was You Chow, a prize climber and runner. He was taken to the city prison and thence to the Home of Inebriates, to await an examination for insanity.

London Locals.

LONDON, January 8. — Spurgeon preached in London to-day. To-morrow he will celebrate at the Tabernacle the publication of his two thousandth sermon.

Dispatches from the Congo country up to December 10th have been received at Brussels. They make no mention of Stanley.

Doyle, the only Invincible released by the authorities, has left for America. He was given a ticket of leave in April last.

Broke the Record.

SAN FRANCISCO, January 8.—At Harbor View Park this afternoon, John Utschig, of the California Schuetzen Club, broke the Pacific coast record in targret shooting, making in four shots a score of 96 out of a possible 100, as follows: 23, 24, 24 and 25. The score was made while engaged in pool shooting, and has never been equalled in the west.

They Want Coin.

LONDON, January 8.—A medical gentleman at Boulogne is of the opinion that McNeall, whose body was found on the beach at Boulogne, was robbed and then thrown into the water. The relatives of the dead man complain of apathy on the part of the French police, who ask money to cover the expenses of making inquiries.

Gold in San Bernardino County.

VICTOR, Cal., January 8.—It is reported that a gold discovery has been made in the Black Hawk Mountain by O. G. Leach (one of the original discoverers of Bodie) and J. B. Cook. The find is said to be a ledge nearly two miles in length, with ore chimneys carrying free gold from $10 to $50 per ton. The ledge is from ten to thirty feet wide.

British Fogs.

LONDON, January 8.—A dense fog prevails on the Irish Coast, and the steamer Wisconsin was unable to land her mails at Queenstown.

In a collision between the steamers Shoreham and Colstrup, off Dover, the former sunk and seven persons were drowned.

The Eastern Winter.

ST. PAUL, January 8.—To-night's weather report shows the following temperatures below zero: Huron, Dak., 26; Fort Vincent, 30; Fort Totten, 30; Fort Buford, 30; Swift Current, 30. At Belgrade last night the thermometer registered 49 degrees below.

An Italian Concession.

ROME, January 7.—The *Riforma* annnounces that Italy has conceded to Spain, for fifteen years, the territory on the bay of Assab, suitable for a coaling station, reserving, however, the right to use it herself, to the exclusion of others, in the time of war.

Russian Reserves.

VIENNA, January 8.—A dispatch from Bucharest says that the Russian reserves in the Odessa district have been dismissed.

DAILY HERALD.

SOUTH CUCAMONGA.

The Coming Town of Southern California.

THE PEER OF TOWN-SITES.

Situated on the Great Sunset Route of the Southern Pacific Railway.

Among the coming towns of Southern California no town has been laid out on a more substantial scale with a view to future growth and prosperity than South Cucamonga, San Bernardino county, California. Its location is one of the most charming in the great Cucamonga Valley, situated on the gently sloping plain, at an altitude of 952 feet above sea level, and within full view of the grandly towering peaks of the magnificent Sierra Madre range. Old Baldy, with his superb height of 9000 feet, and hoary snow-crowned tops and Cucamonga with its grand height of 5000 feet, together look down in majesty on the lovely valley at their feet, where, in most charming contrast, may be seen as far as the eye can roam, orchards of orange, lemon, lime and olive, and vineyards laden with semi-tropical fruits and fields clad with verdure and laden with perfume.

About three miles to the west may be seen the flourishing town and colony of Ontario, to the northwest, about the same distance the world-renowned Cucamonga Vineyard, to the north, the fine new town of North Cucamonga, to the northeast is the village of Etiwanda and to the southeast Riverside, Colton, and San Bernardino, and immediately to the southwest is the rich and prolific Chino Ranch. South Cucamonga being the great central point.

The climate in any section being dependent largely in distance from the sea coast, altitude of surface, re- mountains and general to- lation to ... These conditions are perhaps as nearly perfect in Cucamonga as can be found anywhere in the world. The distance from the sea coast assures freedom from fog-laden sea breezes, while the atmosphere is so pure, dry and exhilarating, that those suffering from Asthmatic and Pulmonary troubles find it most invigorating and health restoring.

The water supply is inexhaustible and being from never failing mountain springs, is abundantly pure. It is conducted in iron pipes, which are already laid throughout the streets of of the town.

The soil is superior and rich sedimentary depos t, of extraordinary depth, is loose and easily worked and retains moisture for a great length of time, requiring very little irrigation. Those who are thoroughly competent to judge have pronounced Cucamonga, taking soil and climate together, to be far superior to the famous Duarte and Riverside orange belt, for raising oranges, lemons, etc., while it is entirely free from scale. The Company also offer lands in 10, 20 and 40 acre tracts with water, adjoining the town site of Cucamonga.

No new town in Southern California has brighter prospects for becoming a railroad center than South Cucamonga. Already it has two great continental lines, the Southern Pacific forming the boundary line to the south, the Atchison, Topeka and Santa Fe a short distance to the north, with two projected lines, one to Riverside and another to Salt Lake City.

A fine new passenger and freight depot, just completed by the Southern Pacific railway, adds greatly to the comfort of travelers and general attractions. Over thirty trains pass through Cucamonga daily.

To secure the comfort of visitors, the fine new hotel belonging to the company has been opened under the manag ment of a thoroughly competent hotel man. No expense has been spared in the appoi tments and furnishings to make it first-class in every respect, while the rates will always be reasonable.

The grounds surrounding the hotel and in the park adjoining have been tastefully laid out with all kinds of tropical shrubbery, ever playing fountains, etc, by an experienced landscape gardener, and over 20,000 trees have been planted in the streets of the town.

A sojourn at this pleasant hotel, where within easy reach are the picturesque mountain trails, the grandly beautiful canyon and irri-istably charming scenery of mountain glens and valleys, will be found vastly conductive to health and happiness.

South Cucamonga, is no new town in the midst of an unpopulated district, but is right in the center of the finest improved portion of the great Cucamonga Valley—and is bound to become a business center.

Owing to its great richness the soil produces the finest oranges and lemons grown in the State, peaches, apples, pears, figs, almonds and walnuts, and the finest of wine and raisin grapes. As a proof of the great fertility of this section, the old Cucamonga vineyard (one of the oldest and finest in the State), may be mentioned. The wines produced here have a world-renowned celebrity.

Freight received at South Cucamonga depot, for the year 1887, amounts to the enormous sum of 5,322,375 pounds; shipments from the said depot for the same period, 2,039,-[illegible] pounds, thus showing the impor- [illegible] locality as a shipping point for the surrounding country.

A first class livery stable will be opened immediately. Telegraph, postoffice and express offices are already established, and the company ntends shortly to erect a number of fine stores, private residences, and also contemplates the erection of a fine bank building. Lots have been set aside for school and church purposes, park and hotel grounds have been tastefully laid out, and over 20,000 trees planted on the streets of the town.

The lots are good and perfectly level, and the company have placed them on the market at the lowest possible price in order to enable those buying now to realize a handsome profit within a short space of time. Compared with surrounding towns, there are no prices as low. In Ontario, the nearest town on the west similarly situated, lots are now selling at from $1,000 to $4,000.

A town backed by the extensive influence of prominent railroad officials and such representive men as H. M. Hellman, W. H. Goucher, C. F. Smurr, T. B. Henry, Jno. E. Jackson, A. A. Staunton, H. M. Russell, &c., whose determination to make it one of the most prosperous towns in Southern California is assured.

The Cucamonga Land and Improvement Company, during the last few months, have been sparing no expense in improving and beautifying this splendid piece of property and getting it ready for sale; and being now assured of its great success as the coming town between Los Angeles and San Bernardino, have formally announced it on the market.

As the date of sale commences at 9 o'clock A. M. on and after Tuesday, January 10, 1888, at the company's office, 130½ West First street, Los Angeles, as well as through the agency of all reliable real estate firms in the city and throughout Los Angeles and San Bernardino counties, intending purchasers should not miss this opportunity to get in early and secure their lots at the first prices of the company.

Investigate This.

Santa Ana is to-day the best and most prosperous town in Southern California, and is having an unparalleled growth. The territ- [illegible] tributary to it, [illegible] the finest section of country in California, and will sustain a city of the present size of Los Angeles. It is a railroad center; has a good harbor within a few miles, and is the commercial metropolis of the great Santa Ana Valley.

There will be a grand excursion and auction sale of fifty lots in the Grange Grove Tract, on Wednesday, January 11th. This land lies right in the heart of the fine residence district on Main street, and is the best property ever offered at auction.

The Bon Ton Bath Rooms

And Tonsorial Parlors, O. L. Susand, Proprietor, are fitted up in perfect taste and neatness. The many artists employed by Mr. Susand are noted for their dexterity with the razor; and for dressing and cutting the hair, shampooing, etc., the Bon Ton has no equal. The bath rooms, which are noted for their cleanliness, are all newly enameled, and to really enjoy a most luxurious bath, hot or cold, with shower, one must try these. The proprietor has likewise especially put up elegant new enameled baths for ladies and children. BON TON, 235 and 237 North Main street.

Santa Ana is Booming.

Over three hundred new buildings in twelve months; elegant brick hotel: population trebled last year; junction of Southern Pacific and Atchison, Topeka and Santa Fe: two more railroads assured. Grand excursion and auction sale of Orange Grove Tract, Wednesday, January 11th.

Santa Fe Springs.

For sale, the Murray Tract of 100 acres, adjoining this flourishing town on the north. A railroad will be in operation within 60 days, bringing Santa Fe Springs within 30 minutes of the city. Will be sold as a whole for $400 per acre, on easy terms, with suitable reduction for cash; or, will be sold in tracts of from 4 to 10 acres. Investigate this, Murray, Power & Co., Fresno, Cal. Chas. Cassat Davis, Attorney, Los Angeles, Cal.

The Queen City.

Go on the grand excursion to Santa Ana Wednesday, January 11th. The Orange Grove tract, with an elegant model villa home, sold at auction, without reserve. Truly the finest property ever offered at auction. Don't fail to be there. Round-trip, $1; less than half fare. Your best opportunity to see California's finest and richest valley.

Warren Glass Company, 932 Mission street, San Francisco. Branch office, No. 5 S. Fort street, Los Angeles. Art embossed, cut and stained glass. Bending, beveling, grinding and silvering at short notice and lowest rates. We defy competition in any branch of the business. Call and examine samples. OTTABSON, Agent.

Make no Mistake.

By dispelling the symptoms so often mistaken for consumption, Santa Abie has brought gladness to many a household, and by promptly breaking up the cough and cold that too often develops into that fatal disease will yet save thousands from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy always in the house. Guaranteed by C. H. Hance, 77 and 79 North Spring street.

Duarte.

A trip to Duarte, a drive through its orchards, is necessary to all Eastern visitors. They will then know what has given its oranges their fame and its foothills the palm for attractive scenery. No spot equals it in capacities for beautiful homes, yet property is held at less than one-third of its neighbors, prices. All trains on the Atchison railroad stop at station.

A Card.

We invite all who are seeking good, safe land investments to call on us for information. We are offering lands that are equal to any in Southern California at prices to encourage all to invest. We ask less than half the prices of other lands of the same quality, and make easy terms of payment. For actual settlers no other tract can offer equal inducements.

SIMI LAND AND WATER CO.
19 West First street.

ADVICE TO MOTHERS.

Mrs. WINSLOW'S SOOTHING SYRUP should always be used for CHILDREN TEETHING. It SOOTHES the CHILD, SOFTENS the GUMS, allays all pain, CURES WIND COLIC, and is the BEST REMEDY for DIARRHŒA. TWENTY-FIVE CENTS A BOTTLE

Nadeau House.

Two hundred rooms—hot and cold water. July elevato in the city. Twenty suites with bath and closets. E. DUNHAM, Prop.

Residence Lots Free

To all who will build on a lovely tract near Pasadena. Address S. D. Hovey, 330 Pine street, San Francisco.

MR. A. HIGGINS, of Wyoming, N. Y., says he had the piles for nearly 40 years, and was cured by using Gilmore's Pile specific.—C. F. Holneman, agent, Los Angeles.

Spence, the confectioner, 46 South Spring street, is sole agent for the Pasadena Fruit Crystallizing Company's fruit. A large supply constantly on hand.

Good table, fine rooms, at Long Beach One hour from Los Angeles.

Dots.

Tents at Foy's harness shop, 217 Los An- [illegible] street.

SANTA ANA.

GRAND EXCURSION.

AUCTION SALE OF THE ORANGE TRACT!

WEDNESDAY, JAN. 11, 1888.

SANTA ANA is the metropolis of the finest and richest valley in California, and is without question the most prosperous town to-day, outside of Los Angeles, in the State. Three hundred new buildings were completed last year, among them the elegant Hotel Brunswick, and the population has trebled in the same time. It is the junction of the Southern Pacific and Atchison, Topeka and Santa Fe Railroads, and two other roads are to be built at once. Two steam motor lines are now being constructed. The country tributary to Santa Ana will support a city as large as Los Angeles to-day and property is certain to have a great advance over present prices. The ORANGE GROVE TRACT is located on Main street, in the center of the fine residence section, and contains one of the most elegant and artistic villa houses in Southern California. This is truly the finest and choicest property ever offered at auction.

SPECIAL EXCURSION TRAIN, accompanied by Fred. Dohs' Splendid Band, LEAVES COMMERCIAL-ST. DEPOT at 10 A. M. Sharp.

FREE DINNER SERVED ON THE GROUND. ROUND TRIP ONLY $1.

Homes for All!

—AND—

IMMENSE PROFIT ASSURED,

—AT—

ROSECRANS!

The Coming Suburb of Los Angeles.

Only $240 per Lot for a Short Time Only

And 24 Houses Given Away on the Homestead Plan!

$40 down, $10 per month without interest. Water in Abundance. Motor Road direct to the townsite. Open for travel December 17th, 1887. Hourly trains from Los Angeles. CHEAP FARE. Rosecrans is coming rapidly to the front, and is meeting with the success that legitimate enterprise always deserves. Our hotel is nearing completion. Our reservoir is full of

Best Water in the County.

Our Brickyard is turning out as good brick as can be got on the coast, which will be furnished to those desiring to build, at 25 per cent. less on the ground than can be bought in Los Angeles. As above stated, we are now selling lots on the Homestead Plan, and agree to build on every alternate block a First-Class House, or 24 houses in all at a total cost to us of $6,000. We are doing this to build up this most magnificent portion of the county, and to enhance the value of our large possessions adjoining. The BEST and CHEAPEST offer ever made for the following reasons: It is only six miles from Los Angeles. Rapid transit motor road. CHEAP FARE. It is situated on a gentle level slope, with a view of 50 miles in every direction. The salubrity of the climate is unsurpassed in the State. The townsite is surrounded by 20,000 acres of land that will raise anything that is planted. Plenty of pure water all over the tract; and last, but not least, the land is being sold by the owners, who have already proved to their many purchasers that they execute all they guarantee, and they hereby assert that with its many advantages, and the improvements being made, that the townsite of Rosecrans will prove a GOLD MINE to those who invest at once. On and after Dec. 15th carriages will leave our office to connect with our motor road at all times during the day.

A SENSIBLE REPLY

To An Interview in An Eastern Paper.

EDITOR SUNDAY LEADER: I beg permission to reply through your paper to an interview which occurred a short time since between your reporter and Mr. W. H. Keech, a Wood street merchant of your city, concerning his trip to Southern California. I am a Pittsburger. I did not come to California for my health. I left a good home and valuable property behind me, three miles from McKee's Rocks. I have been here almost twenty-four years, and have had better opportunities of seeing the State and examining its resources than an invalid who made a return trip in four months. With Mr. McKeech I have no hing whatever to do, and only hope that when his earthly race is run that he may enjoy all the pleasure of dying in Pittsburg that that inhospitable climate affords. I wish, however, to correct some misstatements he made concerning this country, its booms, etc. He says that Los Angeles is a city of 30,000, while it has not less than 60,000, and with the visitors there are 20,000 more, 100 per cent. mistake. He says there are 2100 real estate agents, while the records show but 700—a mistake No. 2 of 66 per cent. He speaks af a big town advertised 85 miles south of Los Angeles City. Whatever dodges our shrewd real estate dealers may resort to to get Eastern people located here and get a portion of their surplus money, this is the first time I have heard of a townsite laid out 13 miles in the Pacific ocean as it is only seventy-two miles to the coast where the Southern Pacific railroad runs. I hardly think that will wash although there may be plenty of water which can literally be taken with a few grains of salt. Mr. Keech mentions the wages paid to bricklayers and carpenters. Why did he not go further and tell the people of Pittsburgh that lathers get $2.75 per M, hod-carriers have been getting $4 a day, the common dirt shovelers and mortar mixers of the hotel building at San Diego he speaks of get $2 a day; that men on farms who till the soil get $1.50 a day, or from $25 to $30 a month the year round, with board and lodging; that Chinese are not employed if white men can be had; that even Chinese are now demanding and getting $1.20 a day for eight hours work.

Fuel is scarce and dear, but coal is only $12 a ton instead of $18; wood is worth from $9 to $10 a cord, but not much is needed. Many families have no other fire in their houses during the year than that used in cooking-stoves and don't require it, so fuel would cost a family less here by the year than in Pittsburg. Everybody who knows anything of the climate knows we have a wet and dry season. The former lasts from the middle of December to the middle of April; the latter the balance of the year, but the mountains close by are covered with a heavy fall of snow, which melting in summer keeps up the streams, from which the water is drained for irrigation.

Our winter rains are now upon us, and if Mr. Keech had been here the last week and seen the six inches of rain that fell in that time he would not complain of sterility. The whole country is now covered with a thick growth of nutritious grasses where the irrigation ditches have not been extended. Crops of wheat, barley and hay are raised. Thousands of tons of wheat are shipped to Liverpool from our seaport annually. Barley is selling at from 30 to 55 cents per bushel. It is the principal or only food for horses. That price does not show much sterility of soil. Southern California alone shipped 400 cars loads of fresh fruits East, besides the raisins, nuts, dried and canned fruits, vegetables, in addition to the millions of gallons of wine and brandy that are made here and shipped to all parts of the world.

I had occasion to visit the different reservoirs of Los Angeles City to examine their gates, towers, etc., to get points as to their construction, being sent as a representative of the Anaheim Union Water Company. I saw no empty reservoir, they are all full, thirty feet deep and the City Superintendent informed me that they had been compelled to waste water all the year on account of no demand for it. I'll venture to say that Mr. Keech did not turn a faucet in the city anywhere that it did not run water, unless, perhaps, it was in a barrel.

Is it reasonable to suppose that the A. T. & S. F. R. R., the S. P., the U. P. roads built three transcontinental roads into Southern California if it was the barren, sterile waste that is represented by Mr. Keech? I have had the pleasure of traveling over two continents, and I am free to say that I have never seen any place where more profitable productions can be grown than here. I am not in the real estate business. I learned to till the soil on the hills of the Ohio north of Pittsburg. I have followed my earliest occupation. I own fifty acres in one tract (no town-lot stakes on it), my vineyards, English walnuts, oranges and lemons, besides figs, apples, pomegrantes, pears, prunes and make me an income of from three to four thousand a year, beside paying all the labor. I would gladly take a trip back to Pittsburg to see fifty acres there that will do as well. An orchard close by ships over thirty car loads of oranges, lemons, almonds figs and Japanese persimmons and brings in its owner from ten to thirteen thousand dollars annually. Our real estate men may exaggerate their lots, may enthuse eastern people, but their is no likelihood of the "tremendous and ruinous crash" predicted. The banks of Southern California had on Christmas day $25,000,000 deposited. The architects reports 1099 new buildings erected in the city of Los Angeles in 1887, from $4,000 up. There are $2,000,000 worth of buildings now contracted for and under way. The workers here cannot do the business they have to do. There is plenty of room for laborers, farmers, mechanics and house servants. There was $96,000,000 worth of property changed hands in 1887, against $28,000,000 in 1886. The year 1888 will see still greater transactions. For me this is a very good place to live, and about as good a place to die. There are plenty of Pittsburghers here who are of the same opinion. A man who has a comfortable home here and is not contented would not be happy in heaven. Respectfully yours,

W. M. MCFADDEN,

Anaheim, Los Angeles Co., Cal.

NOT MASHED ON CALIFORNIA.

A RETURNED PITTSBURG MERCHANT SAYS THE COUNTRY IS SWARMING WITH LAND SHARKS.

MR. W. H.K eech, the Wood street merchant, has just returned from the Pacific coast, where he has been sojourning for the past four months in quest of health. He returned home Friday. He does not seem any too favorably impressed with the methods in vogue on the coast by the land boomers. To a reporter who corralled him for a few moments yesterday Mr. Keech said: "About all the habitable land in Southern California is staked off in town lots and is being sold at fabulous prices. The land sharks are ubiquitous, and every stranger is closely watched to ascertain whether or not he is the possible purchaser. As an illustration of the gigantic system they have adopted I may tell you that in Los Angeles there is a population of 30,000 and I was told by a gentleman that there were in that town no less than 2100 real estate agents, all of whom were doing a prosperous business. At a place on the Southern Pacific railroad about thirty-five miles south of Los Angeles there is a town extensively advertised as having a large population, with large hotels, business houses, street railways and all the appurtenances of a large city. I found when I got there there was one store, one tenement house, one hotel and no other buildings in sight. They have the street railway, however, but I saw only one car, and that without horses or burros attached, standing on a piece of track where it could be conveniently seen from the railway station. I discovered afterward that there is a beautiful town located there, but it is built upon paper and exists only in the fertile imaginations of the real estate boomers."

How is the cost of living as compared with Pittsburg?

"Well, its about 50 per cent. higher. The bricklayers make $7 a day, carpenters $4 and $4.50 a day. Southern California is no place for laboring men, the Chinamen being there in swarms. In a little place adjacent to San Diego I think there must be about 500 houses in course of construction, not a single one of which would exceed a cost of $500 or $600. It reminded me of some of the mushroom oil towns of our own state in the palmy days of the oil excitement.

"Are there any Pittsburgers there?" Mr. Keech was asked.

"I saw but one and I had known him here. He gave up a good situation here and is now digging holes for telephone wire posts on a line being projected from San Diego to Mexico. The climate of California is superb, but it is as sterile as a desert, because of the destitution of rainfall There are no trees except those which have been planted and well cared for, and although Los Angeles has built a tremendous reservoir in a ravine of the mountains there was not a drop of water in it. Water is scarce, milk is scarce, coal of an inferior quality is sold for $18 a ton, and all provisions are high. There are some beautiful spots, among them being a sort of Pacific coast Saratoga on a peninsula not a great distance from San Diego. A syndicate of capitalists purchased it for $100,000 and have erected a hotel, theater, a mammoth ball-room, all under one roof. The building covers seven and a half acres of ground and is really a tremendous affair. The hotel has 604 rooms, the theater will seat about 4500 people, and the dancing pavilion is a spacious room of lofty dimensions. The dining-room will accommodate 1500 persons at one time and the breakfast-room will seat 800 comfortably. Although not yet finished, a large military band plays there every Sunday and attracts large crowds of visitors. I understand that the syndicate have expended over $1,000,000 on the peninsula, and by the impetus given to the sale of land consequent upon their building this mammoth hotel, they have cleared $2,000,000 over and above all investments. Pasadena and Sweet Water are beautiful places. Orange, lime, olive, lemon, English walnut and other fruit groves flourish abundantly, and some fine health retreat hotels are these also."

"What, in your opinion, will be the result of all this wildcat speculation?"

"A tremendous and most ruinous crash. There are no possibilities for manufacture and no water for agriculture or pomoculture. They get considerable coal along the ocean beach towns from British America, and lumber from Oregon and the north. The only motive people can have in going there is for health, and in consequence of the bland and delightful climate and there being no possibility of industries thriving there, there certainly will be no demand for all the lots which have been laid out and sold. It's well worth a visit, but as a place to live and die in, I prefer old Pennsylvania by a large majority."

ATTENTION, "TENDERFEET."

Santa Ana Will Suit You.

Are you looking for a home or business location? Do you want a place that will have a solid, steady growth and substantial prosperity after the "boom" has departed? Do you want to invest in property at "bedrock" auction prices that must appreciate in value? Santa Ana is your place and the auction of the Orange Grove Tract your opportunity. Biggest excursion of the season leaves Commercial street depot Wednesday, January 11th. Beautiful ride, splendid music, free dinner. Bring your family and your friends. Round trip $1. Tickets and maps of John W. Gardner, 210 South Spring street; H. H. Matlock & Son, auctioneers, 111 West First street, or Southern Pacific ticket office.

The Geo. Dalton, Sr., Tract

Is on the corner of Central Avenue and Washington streets Take street cars at First and San Pedro every half hour. Time, about ten minutes. Office at 29½, South Spring street. Nine to 12 A. M. After that at the tract. Improved property one-fourth cash, balance in easy payments. Water piped. Lots, $25, upwards. Look at them carefully before you purchase. Find CHAS. VICTOR HALL. Be sure and buy one early.

Elegant Home at Auction.

Two-story, eight-room, hard-finished residence, one of the finest homes in Southern California, will be sold to the highest bidder at the auction sale of the Orange Grove Tract at Santa Ana, Wednesday, January 11th. Grand special excursion train leaves Commercial street depot at 10 A. M., sharp.

Kenilworth Zoological Gardens.

The rain just over, has brought out all the beauties of this favored spot. Some of the Ostriches suffered a little during the storm, but now they look fine, and the other animals seem all the better for the winter snap. The new cars and large engine are in fine working condition and trains will run regularly from now on, leaving the Sisters' Hospital every two hours. Those who admire scenery should go out to-day and take in the views before the snow melts on the mountains opposite, as the sight now to be had is one seldom to be enjoyed here. Those who do not go to-day, can get passes on the road next Wednesday, and can get free admission to the gardens by applying to C. A. Sumner & Co., 54 North Main street, who will hold an auction of lots there at 11 o'clock.

Ladies who are troubled with cramps and nervousness should drink Damiana Bitters It is pleasant to take.

For choice candies, bon-bons, crystalized fruits, etc., go to Spence's, 46 South Spring street. Church fairs and festivals supplied at lowest rates.

WHY WILL YOU SUFFER from Ague and Malaria when Gilmore's Aromatic Wine will cure you.—O. F. Heinseman, agent, Los Angeles.

MAPS WILL BE READY IN A FEW DAYS AND SALE OF LOTS TO SUBSCRIBERS COMMENCED, OF WHICH DUE NOTICE WILL BE GIVEN. ONLY A PORTION OF the property will be sold this season and more than half of this portion has been subscribed for; the balance reserved until hotel and other improvements near completion. Parties wishing lots should get their signatures on the list at once. Wharf has been contracted for. Railroad from Inglewood to Redondo Beach now being built. Look out for important announcements to be made public in few days relative to this place as a commercial harbor second to none on the coast. Parties who subscribe for lots now will soon realize their great value.

-:- REDONDO BEACH, -:-

SIXTEEN MILES SOUTHWEST OF THE CITY OF LOS ANGELES, IS, WITHOUT DOUBT, THE FINEST PLACE ON THE CONTINENT FOR A SEASIDE RESORT, AND THE enterprising company is doing all that ample means and broad ideas suggest to fully realize the grand result that nature has made possible. Two miles of water front, aligned like a half-moon bay, of which the northern horn is occupied by a remarkable fine pebble beach; the southern part by the very best bathing beach anywhere to be enjoyed; while the middle portion is an abrupt shingled shore, bordering water so deep that the largest ships may lie free from ground swell within a stone's throw of land. Rising behind this frontage a peculiarly beautiful rolling land is backed by low but commanding hills, smoothing less than a mile from shore and in amphitheatre form, so that the place is a panorama unto itself from every point of view. The higher grounds look back upon the city of Los Angeles and the Sierra Madre Range, and the ocean view in the opposite direction is set between rocky headlands that hold it as in a frame. A salt spring lake, half a mile in length, whose waters are much more dense than those of the sea, presents opportunities for quiet boating and peculiarly healthful bathing not paralleled at other places. The soils are remarkably fertile; the fresh water supply, to be piped throughout the tract, is pure and abundant, and the sub-soils are open and absorptive. So that beautifying of grounds is of easy accomplishment, and the healthfulness of the place is assured.

A hotel of the most ample dimensions, picturesque effects and perfect appointments, is to be built adjoining the beach, on a site terraced to the water-front promenade, and flanked by a park which extends to the bathing beach on one hand and on the other to the IRON PIER, costing over $100,000, reaching into deep water and arranged for landing of boats of every description, from the mosquito yaot to the trans-ocean clipper.

THE CHAUTAUQUA ASSEMBLY.—Grounds for the accommodation of the Chautauqua Assembly of Southern California have been set aside, and here the management are about to build an amphitheatre and other permanent structures.

THE OUTLOOK.—The rapid development of REDONDO BEACH, as a place of local pleasure resort and health-giving homes, and as a tourist's objective point from far and near, is now assured. Its deep-water facilities, protected frontage, railway approachability and fine back country insure its future importance as a commercial point. It is a most remarkable place, in that it really admits of a combination of pleasure with business, as an examination will prove to any one of judgement. For particulars call or address

The Minority Report.

The minority report presented to Congress by the Commission on the Pacific Railroads bears rather more hardily on the corporations in question than does that presented by the majority of the board. Ex-Governor Pattison of Pennsylvania presented this latter view of the question. The paper first goes into the history of the subsidized roads and shows how six companies were aided by government bonds to the amount of $64,623,512. These all started at five points on the Missouri river and were intended to open communication with the shores of the Pacific. In thirty years the Government has paid on these bonds $114,261,247 in interest. The roads had land grants aggregating 26,000,000 acres on which they have realized $39,427,210, with $26,000,000, worth of land still unsold. From other sources the companies had $3,070,877, and they are estimated to have been benefited to the further extent of $199,790,250 by the use of the Government's annual advances of $3,877,400. This part of the report thus concludes:

By adding the amounts together, the Commissioner calculates that the total aid extended to the six companes was as follows: Union Pacific and Kansas Pacific, $241,696,788.07; Central Branch, $10,373,173.22; Sioux City and Pacific, $10,048,425,65; Central Pacific and Western Pacific, $185,611,083.60. Total, $447,729,470.54.

In return for these advantages Congress enacted that the companies should bind themselves to have their stock fully paid in cash. They should build first class roads; they should carry for the Government at reasonable rates, not exceeding the amount paid by private parties for the same kind of service; they would operate the lines of the Pacific system as one connected continuous line, affording each to the other roads equal facilities as to rates, time and transportation, and convey telegraphic messages upon equal terms for all persons. They were also required to make sworn annual reports showing the amount of stock actually paid in and information relating to their financial operations.

In a table entitled "Cost and Capitalization" the Commissioner says: "The six roads were built for less than $96,000,000, yet bonds and stock were issued for $268,302,462, as follows:

Union Pacific	$38,824,000	$109,814,812
Kansas Pacific	11,800,000	25,628,250
Central Branch	2,731,347	4,200,000
Sioux City and Pacific	2,600,000	5,407,720
Central Pacific	36,000,000	124,211,680
Western Pacific	4,000,000	
Total	$96,955,447	$268,302,462

The report then proceeds to arraign the roads for breaking each and every part of their contracts with the Government, Quoting again from the report we have this:

They increased the cost of living. They laid proprietary claim to the traffic of large sections of the country. They constituted themselves the arbiters of trade. They attempted to dictate the channels that trade should follow and to fix rates of transportation that were extortionate. They discriminated between individuals, between localities and between articles. They favored particular individuals and companies. They destroyed possible competitors and they built up particular localities to the injury of other localities, until matters had reached such a pass that no man dared engage in any business in which transportation largely entered without first soliciting and obtaining the permission of a railroad manager. They departed from their legitimate sphere as common carriers and engaged in mining articles for transportation over their own lines. They exerted a terrorism over merchants and over communities, particularly in election contests.

Then follows statements to show that the Government has been grossly and unfairly treated by the roads. For services rendered the United States, the report claims to show overcharges by the Union Pacific amounting to $802,407, and by the Central Pacific to $167,558. By erroneous reports, it claims, the Government has been further defrauded, and the total amount of such frauds is put at $8,000,000, but no specifications are given for this sum. It is charged that the directors of the Central Pacific have divided to themselves over $142,000,000 out of the road, and that they have built and leased to themselves 1171 miles of adjunct lines Within fifteen months 103 miles are stated to have been built on the California and Oregon extension, the cost of which was $3,505,609, while the directors had paid to themselves to do the work $8,000,000 in stock and $4,600,000 in bonds, the market value of which is $8,340,000. The reports further states:

The Central Pacific Company also expended $4,818,355 67, of which the managers declined to give any explanations or to permit others to explain. The balance sheet of the Central Pacific for 1886 shows a deficit of $14,000,000, but by omiting the Government interest from the debt side and marking up the value of the unsold lands from $12,500,000 to $23,000,000, an apparent surplus of over $28,000,000 was presented.

In the accounts of the Union Pacific it was found that $38,000,000 of the funds of that company had been expended for the construction of branch lines; that many millions additional had been squandered in the purchase of bankrupt branch lines at excessive prices, and that the earnings of the express and telegraph service of that company, as well as the other bond-aided companies, were, in violation of the law, placed under the control of express and telegraph companies, in which some of the managers of the Union Pacific and Central Pacific Railroad companies were largely interested, and of which they were the main beneficiaries.

The report next proceeds with a discussion of the refusal of the roads to pay their taxes. It then states that the Union Pacific is ready to pay $35,000,000 towards the extinguishment of its debt to the Government. The Central Pacific stated that their road—the subsidized part of it—was not worth more than the amount of the first mortgage bonds, $27,855,680, which lien has priority over the Government's claim. The Sioux City road offered $1,000,000 to liquidate three times the amount. The sum of all tenders was $36,00,000 to cancel the debts amounting to $122,482,106.32.

The question is then raised as to the remedy to be sought. Governor Pattison takes direct issue with the majority of the Commission on the proposition to extend the time for payment. This, he thinks, is only putting off the evil day, with the effect of making payment more hopeless then than now. He urges immediate legal proceedings to compel the roads to meet their obligations to the government. The report appears to realize the fact that such steps will be futile as a means of recovering payment of any debt, but it seems to contemplate the severance of all connection between the roads and the Government as a most desirable outcome. The forfeiture of the charters of all these aided roads is also urged.

The Tax on the Poor Man's House.

WASHINGTON, January 4.—In the Senate to-day the petition of Renton, Holmes & Co., wholesale lumber merchants of San Francisco, and other citizens of California against a reduction of the duty on lumber, was presented.

The above telegram appeared in the papers served by the Associated Press dispatches on the 5th instant. It is reproduced here in order to call attention to one of the "infant industries" which those who favor "a tariff for surplus only," clamor to have protected. The lumber of this Coast consists for the most part of redwood, fir and cedar. The redwood needs no protection for the reason that it has no competitor in foreign lands. Redwood grows in California from about Santa Cruz to the Oregon line, and nowhere else. British Columbia is capable of supplying us a great deal of fir timber, and some cedar. Should this be admitted free of duty? The high protective press, the subservient tool of monopolistic combinations, will declare such a course would do untold injury to the interests of the State. The patent fact is the remission of this duty would be the greatest benefit to California. The greater part of the timber lands of this coast have been literally "grabbed" by a few persons. The means by which much of these lands have been taken up are infamously unjust. At this moment half a score of firms would sum up all the lumber mills of the Coast. There is between these a hide-bound contract by which the price of their product is maintained at a most exhorbitant figure. Rough lumber costs here $32 per thousand feet. Even at that price builders cannot get a sufficient supply to go on with the contracts on hand. Los Angeles is putting up buildings to the gross amount of about six thousand a year. These cost not less than $15,000,000. It is a well-known fact that from the Fuca Straits to the Mexican boundary line, building is going on at an enormous pace all along the coast. The gross amount of construction is past calculation. There are many thousands of people interested in the new edifices. They include the farmer of moderate means, the mechanic who has saved enough to build a pretty cottage, and the poor man who is able to put up only a cheap shanty to shelter his family. On the work are employed a great army of all sorts of mechanics as well as hod-carriers and other unskilled laborers. The tax on lumber all goes into the capacious pockets of the few men who own the lumber mills, and comes out of the narrow pouches of the thousands of poor people who are engaged in building up the country, opening new farms, multiplying the homes in the cities, working the mines and developing all the other industries of the Coast. There are engaged in defending this infamous injustice the intelligent, but subsidized Republican press, and the unsubsidized portion of the same whose crass stupidity and blind partisan bias leads it to do gratis what the other portion is paid for.

NOT the least of the great advantages to be derived from the building of a railroad from Salt Lake to Los Angeles will be the facility with which our market will be supplied with beef cattle from the Nevada and Utah ranges. Nevada, especially, is now raising a very superior class of steers. The bunch grasses of that Territory are sweet and nutritious, and greatly surpass in fattening properties the feed of Arizona. Indeed, the best beef that finds its way to the San Francisco market is raised in Nevada. The Salt Lake road will doubtless be tapped by the Carson, and Colorado railroad, and Carson valley is now teeming with cattle in fine condition. Last year the consumption of beeves in this market reached about eighteen thousand head. Of course this figure will keep on steadily increasing, and the cattlemen of the great ranges in the Territories of Utah and Nevada will look hereaway for a near and profitable market as soon as cheap transportation shall have been furnished. And this traffic, too, doubtless constitutes one of the most inducing items to the capitalists who are about to build the road.

ADVICES from the State Central Democratic Committee are to the effect that sanguine hopes may be entertained that the National Convention will assemble at San Francisco. No better selection could be made in the Union. It would give Eastern Democrats an opportunity to see the Union in all its breadth. They would at divers points come in contact with leaders of the party in the great West. They would be able to view the industries growing up in the new States, and they would see here what the Chinese evil actually is in all its heinousness. The need of the hour is to educate the Eastern politician up to a knowledge of the West, its greatness, its needs and its right to more recognition. The far East has usually been Anti-Democratic, while the old party has generally had the following of the new blood in the growing States. Let the committee decide in favor of San Francisco and it will tend greatly to bring back the Pacific States, and other western States to the party.

THE King of the Hawaiian Islands is reported as intending to appoint a man named Austin to be Minister to our Government. This man has been a resident of the Islands for twenty years; but he is a cousin of President Cleveland, and a wide-awake, intelligent and profoundly sagacious Republican paper of this city has discovered in these secret and mysterious facts the germs of a plot on the part of King "Calico" to steal the United States. Hurry up, now, and elect Blaine President. Then appoint a Robeson, a Belknap, or a Chandler to be Secretary of the Navy. Let one of these redoubtable worthies get up a navy like the old Jamestown *et als.*, to defend the country from these bold Kanaka pirates, headed by this thirty-first cousin whom Cleveland probably has not seen for twenty years.

"THE gallant Colonel" who presides over the editorial tripod of a Republican contemporary is—on a pinnacle of prejudice—viewing with dire alarm the dreadful fact that a Southern man is Speaker of the House, and that another is chairman of the Ways and Means Committee. He weakly approximates to setting up a claim that these men represent a minority of the people of this Union. He forgets the fact that Mr. Carlisle and Mr. Mills belong to a party whose minority was large enough to elect Mr. Blaine to write his message from Paris instead of from the White House. He also overlooks the fact that the party has a majority in many States in all sections of the Union, and that it runs his party very hard to carry any State excepting two or three.

SENATOR CHACE of Rhode Island represents a State which is engaged in woolen manufacturing to some considerable extent. Woolen manufacturers in Rhode Island, as elsewhere, desire to have the duty removed from wool. Senator Chace is opposed to the removal of this duty. In this respect Senator Chace does not represent any large part of his constituents. He is a cotton manufacturer himself, and his interests lie in the direction of suppressing the manufacturing of woolen goods. He represents Senator Chace pretty well.

THAT "wet" election in Atlanta the other day was not by any means a deluge. The new Council elected on the anti-Prohibition ticket has passed ordinances which quarantine all the saloons in one portion of the city, putting an annual license of $10,000 on the trade, and closing all places where liquor is sold at 10 o'clock on every night in the week. If that is the policy of the liberal portion of that city, things would be stringent if left to the illiberal part of that people.

OAKLAND claims she built 700 new houses last year. Los Angeles built nearly as many thousand new edifices. The cost of the Oakland improvements was $1,500,000. We spent $15,000,000 in such enterprises. The dormitory of San Francisco added 4000 sleepers to her nightly population. We added 20,000 to ours, and they belong to us by day as well as by night. They are a living growth—nothing sleepy about them.

Ostriches Free.

The Kenilworth Zoological Gardens will be thrown open on Wednesday, January 11th to those attending the auction, and C. A. Sumner and Co. will furnish passes to all applying at 54 North Main street.

"Wants," "Personals" and other advertisements under the following heads inserted at the rate of 5 cents per line for each insertion.

Subdivision of Part of Bannister's Addition

—TO—

Santa : Fe : Springs!

In beautiful residence lots immediately adjoining the best side of the Santa Fe Springs townsite. These lots are now on the market at very low prices. Acreage adjoining at low acre prices.

THE SANTA FE RAILROAD

Will be running trains through the Springs by January next. This is the most desirable property in the San Gabriel Valley. This is the cheapest property on the market to-day.

BYRAM & POINDEXTER, 27 W. First Street.

d23-2m

A PROMISING TOWN.

Beautiful Glendora Still Forging Ahead.

Of the many promising towns in Southern California Glendora, of this county, is one of the most promising. Its situation is such, being 1200 (feet above the sea level,) that it has many attractions as a sanatarium. The climate is all that could be desired, and the situation of the town is such as to captivate the eye of the scenic artist. Glendora is at the terminus of the Santa Fe local Railroad, who have constructed a depot much larger than in Los Angeles county outside of this city. A University to cost $50,000 is about to be erected. This will be a valuable addition to the buildings now there. The next meeting and fair of the Pomological Society will be held in this enterprising burg in January. Glendora will by the pluck, industry and enterprise of her liberal citizens, soon become a city of note.

The Alhambra Hotel

Is now open for the reception of guests. The hotel is located at Alhambra, seven miles from Los Angeles, on the S. P. R. R. Parties wishing to engage board and rooms for the winter can do so by addressing the manager, S. F. Perrigo.

The Coleman Flag brand of canned fruits is acknowledged superior to anything in market. M. A. Newmark & Co., sole agents for Southern California."

A Chance to Get Fine Land and Water without Cash.

Porter Land and Water Company, corner of First and Spring streets, offers a few tracts of their best valley land at San Fernando to parties desiring to plant half in citrus fruit trees without requiring any cash for one year. Regular prices, plenty of pure, free water piped to the land. Terms, one, two and three years, at six per cent. interest.

The company also offers 320 acres, and no more, for $150 per acre, with free water piped to the tract. It is certainly the cheapest thing yet offered. Go see for yourself, ye wise. Terms, one-third cash, balance in one and two years, six per cent. interest.

Acreage in Bannister's addition to Santa Fe Springs is selling rapidly. Now is the time to buy, as the A., T. & S. F. and S. P. Railroads will be running trains through the tract by January next. Prices will be advanced soon. Will pay to investigate.

BYRAM & POINDEXTER,
27 West First street.

Mammoth Excursion.

The grandest excursion of this season will take place Wednesday, January 11th, to Santa Ana, the most prosperous town outside of Los Angeles. Lovely ride, splendid music, free picnic, lunch and fine time guaranteed.

Notice of Sale of Real Estate Under Execution.

SHERIFF'S SALE—NO. 6048. J. A. Graves, Plaintiff, vs. S. Bustamante et als., Defendants. By virtue of an execution issued out of the Superior Court of the county of Los Angeles, State of California, wherein J. A. Graves is plaintiff and Salvador Bustamante, S. Strohm, W. A. Field, F. C. Rimpau, N. H. Mitchell, R. A. Harlow, Henry Rogers, Jacob Yaeger, Loumay Strobel, Marmaduke Strobel and all persons unknown who had or claimed any interest in the property involved in the action of J. A. Graves vs. the parties above named, defendants. upon a judgment rendered the 30th day of September, A. D 1887, for the partition of said lands involved in said action, and for the sum of seventy-five dollars and thirty-six cents, ($75.36), in lawful money of the United States, besides costs and interest, against the defendant Loumay Strobel. I have this day levied upon all the right, title, claim and interest of said defendant Loumay Strobel, which he had on the 30th day of September, 1887, of, in and to the following described real estate, to-wit; All that certain lot piece or parcel of land, situate, lying and being in the town of Anaheim, county of Los Angeles, and State of California, and more particularly bounded and described as follows, to wit: Commencing at the intersection of the westerly line of Clementina street with the northerly line of Santa Ana street, in said town of Anaheim. Thence running northerly along the westerly line of said Clementina street to the southerly line of Davis street. Thence at right angles westerly along south line of Davis street 202.47 feet. Thence at right angles southerly to the northerly line of Santa Ana street. Thence easterly along the northerly line of Santa Ana street 202.47 feet to the point of beginning, being all of lots 1, 2, 3, 4, 5, 6 and 7 of block B, as per map made by Referee Richard Melrose, in the case of Graves vs. Bustamante et al., Superior Court of Los Angeles county, California, a copy of which was recorded September 30th, 1887, with the certified copy of the decree in said case, in book 310 of deeds, page 371, Records of Los Angeles county.

Public notice is hereby given that I will on TUESDAY, the 31st day of JANUARY, A. D. 1888, at 12 o'clock noon of that day, in front of the court house door of the county of Los Angeles, on Spring street, sell at public auction, for cash, in lawful money of the United States, all the right, title, claim and interest which said Loumay Strobel had in or to the above described premises on September 30, 1887, or so much thereof as may be necessary to raise sufficient to satisfy said judgment, with interest and costs, ect., to the highest and best bidder for cash in U. S. gold coin.

Dated this 3d day of January, 1888.

JAMES C. KAYS,
Sheriff of Los Angeles county, California.

NOTICE FOR PUBLICATION

TIMBER LAND, ACT JUNE 3, 1878.

UNITED STATES LAND OFFICE, LOS Angeles, Oct. 25, 1887. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," John F. Powell, of Newhall, county of Los Angeles, State of California, has this day filed in this office his sworn statement for the purchase of the E½ of the NW¼ of section No. 8, in Township No. 1 north, range No. 11 west, S. B. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at 10 o'clock a. m. on the 14th day of January, 1888. He names as witnesses, H. S. Sook, of Los Angeles county; L. H. Emerson, of Los Angeles county; Wm. White, of Los Angeles county; Wm. N. Monroe, of Los Angeles county.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 5th day of January, 1888.

J. D. BETHUNE,
n11-60t Register.

In the Superior Court

OF THE COUNTY OF LOS ANGELES, State of California, order to show cause why order of sale of real estate should not be made in the matter of the estate of J. Frank Newman, deceased. Mabel S. Newman, the administratrix of the estate of J. Frank Newman, deceased, having filed her petition herein praying for an order of sale of a portion of the real estate, of said decedent, for the purpose therein set forth. It is therefore ordered by the said Court, that all persons interested in the estate of said deceased, appear before the said Superior Court on Monday, the 23d day of January, 1888, at 10 o'clock in the forenoon of said day, at the court room of said Superior Court at the rooms of Department Two, in the city and county of Los Angeles, to show cause why an order should not be granted to said administratrix to sell so much of the real estate of the said deceased as shall be necessary. And that a copy of this order be published at least four successive weeks in the Los Angeles DAILY HERALD, a newspaper printed and published in said county of Los Angeles.

W. P. GARDINER,
Judge of the Superior Court.
Dated December 19, 1887. d24-1m

IN THE SUPERIOR COURT.

OF THE COUNTY OF LOS ANGELES State of California. In the matter of the guardianship of the person and estate of Andrew Williams, a minor. I. B. Williams the guardian of the person and estate of Andrew Williams, a minor, having filed his petition herein duly verified, paying for an order of sale of the whole of the real property of said minor, for the purpose herein set forth:

It is therefore ordered by this Court that all persons interested in the estate of said minor appear before the said Superior Court on Monday, the 23d day of January, 1888, at ten o'clock in the forenoon of said day, at the Court room of Department Two of said Superior Court, in Jones Block on New High street, in the City of Los Angeles. County of Los Angeles, State of California, to show cause why an order should not be granted to the said guardian to sell the whole of the real estate of said minor at private sale; and that a copy of this order be published at least four successive weeks in Los Angeles DAILY HERALD, a newspaper printed and published in the City of Los Angeles, County of Los Angeles, State of California.

W. P. GARDINER,
Judge of the Superior Court
Dated, December 15th, 1887. Dec 17-td.

F. M. Erwin, of Newhall P. O., Cal.
Dec 20-30t J. D. BETHUNE, Register.

LEGAL.

Resolution of the Board of Supervisors

OF THE COUNTY OF LOS ANGELES adopted Dec. 19th, 1887. On motion of Supervisor Venable the following resolution of the Board of Supervisors of Los Angeles county, California, was unanimously adopted, viz.:

WHEREAS, It appears that the property hereinafter described belongs to the county of Los Angeles and is not required for public use, and that the sale thereof will be for the best interests of said county, therefore be it

Resolved, That the Clerk of this Board be and he is hereby directed to give thirty days notice, by publication in the Los Angeles Daily HERALD and *Evening Express*, newspapers published in said county, that said property will be sold at public auction, at the door of the Court House of said county, on Main street, in the city of Los Angeles, California, on the 10th day of January, 1888, at 12 o'clock M. of said day, to the highest bidder for cash.

The first parcel being situated in the city of Los Angeles, California, and being lot No. 2 of "Subdivision of County Hospital Grounds," according to map thereof recorded on page 1, Book 23 of Miscellaneous Records of Los Angeles county aforesaid.

The second parcel being lot No. 3 of said tract.

The third parcel being lot No. 4 of said tract.

This sale is conditioned upon the removal or sale of County Hospital buildings in [illegible] months from January 20, 1888, or sooner if suitable grounds can be obtained for hospital purposes.

The minimum price for lot 2 is [illegible] per acre.

The minimum price for lot 3 is [illegible] per acre.

And the minimum price for lot 4 is [illegible] per acre.

The Board reserves the right to reject any or all bids.

By order of the Board of Supervisors of Los Angeles county, California.

In the Superior Court.

STATE OF CALIFORNIA, COUNTY OF Los Angeles, ss. In the matter of W. M. Wilson, an insolvent debtor. Adjudication of Insolvency, Sec. 6, Act of April [illegible], 1880. W. M. Wilson having filed in this court his petition, schedule and inventory in insolvency, from which it appears that he is an insolvent debtor, the said W. M. Wilson is hereby declared to be insolvent. The Sheriff of the county of Los Angeles is hereby directed to take possession of all the estate, real and personal, of the said W. M. Wilson, insolvent debtor, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account and papers, and to keep the same safely until the appointment of an assignee of his estate. All persons are forbidden to pay any debts to the said insolvent, or to deliver any property belonging to such insolvent to him, or to any person, firm, corporation or association for his use; and the said debtor is hereby forbidden to transfer or deliver any property until the further order of this court, except as herein ordered.

It is further ordered, that all the creditors of said debtor be and appear before the Honorable Wm. P. Gardiner, Judge of the Superior Court of the county of Los Angeles, in open court, at the court-room of said court, in the Jones Block, on New High street, Los Angeles city, in the county of Los Angeles, on the 10th day of [illegible] 1888, at 10 o'clock A. M. of that day, to prove their debts and choose one or more assignees of the estate of said debtor.

It is further ordered, that this order be published in the Los Angeles [illegible] HERALD, a newspaper of general circulation, published in the county of Los Angeles, as often as the paper is published before the said day set for the meeting of creditors.

And it is further ordered, that, in the meantime, all proceedings against the said insolvent be stayed.

Dated January 7, 1888.

A. W. HUTTON,
Judge of the Superior Court.

[...] HERALD.

RIFLES OF THE FUTURE.

Instructive Experiments with Steel Clad Bullets.

There never was a time when the armies of every prominent nation were so busily engaged in improving weapons of war as at present. The nations of Europe have been particularly active in this respect. At least twenty magazine rifles for military use have been brought to public notice within the past three years, and with the advent of each new rifle it was proclaimed that the perfect military arm had been found.

The models of different arms are guarded with considerable secrecy, but from those who have been privileged to see many of these new devices, it is learned that there is a striking similarity to most of them, and many are copies of previous inventions with very slight changes and no improvements.

There have been many inventions in magazine rifles which have proved failures, but it has been granted by the military powers of all civilised nations that the military rifle of the future will be a magazine rifle. Most of those adopted by various Governments will doubtless have a detachable magazine, or one that can be shut off; the arm operates as a single loader, and in case of an emergency, where determined effort is to be made to turn the tide of a battle, at a command the magazines of the rifles are to be operated.

It being settled that a magazine rifle will be the rifle of the future, it has become apparent that greater consumption of ammunition is likely to be made, but on the other hand beyond a certain amount the ammunition becomes too heavy and hinders the soldier's movement.

Probably nine-tenths of the shots fired in action are without effect, either striking the ground beyond or short of the foe, and the high curve or trajectory of the rifle ball is a fault to be corrected. It is also found desirable to increase the average range of the rifle, for in future battles much fighting will be done at extreme long range, where the skill of the sharpshooter can be utilised, and at very close quarters, where the magazine would be brought into use. To lower the trajectory, increase the range and avoid fouling, as well as lighten the cartridge to permit the soldier to carry more ammunition, necessitates a radical change in the amunition and caliber rifle.

A short time ago the standard of military calibers was 45-100 of an inch. The authorities of Europe now believe that the military rifle of the future will be between .32 and .34 calibre. France, Austria, Germany, Belgium and Portugal have fixed upon .32 calibre or thereabouts. New powders are being perfected, and in stead of the lead bullets, bullets with hard metal coats and wire steel are being substituted.

In the manufacture of the compound bullet, a flat disc of steel, copper, or other metal an inch in diameter is made by a punch, and this is stamped in the way in which the brass shells for cartridges are prepared, until it ultimately assumes the form of a bullet, but two long. A bore of lead just fitting the inside is then introduced and soldered to the shell of the bullet by means of tin. This bullet is then subjected to enormous pressure, which gives it its final shape. The base eud is then cut off in a lathe and the finished bullet is the result.

The penetration of the .32 compound steel bullet may be judged from the following fact: Three dead horses were put up in a line, tandem position, and a steel-clad bullet went through all three horses. Another bullet went through a block of solid pine timber twenty-six inches thick. Several 480-grain hard lead bullets in a regulation cartridge with eighty-five grains of powder were fired into a block of beech three and a half inches thick, but not one came through. The path formed by the bullet was a perfect cone and the several bullets were recovered flattened and out of shape. Several Lorenz steel compound bullets were then fired and penetrated seven inches of beech in two planks each three and a half inches thick and from six to seven-inch planks of deal set in a rack behind. None of the steel compound bullets were seriously distorted. The penetration of a .45 steel compound bullet is by reason of its greater diameter far inferior to that of a .32 steel compound bullet.—[Boston Herald.

KENTUCKY KISSES.

Divided By an Expert Into Three Recognized Classes.

Outside of those kisses bestowed by affectionate relatives, there can be but three recognised classes of the genus kiss, as viewed from a male standpoint. The first comes upon your lips as if they were touched by a smooth-planed, cool and insensate board, without life or animation, unproductive of any agreeable sensation whatever, and not worth being garnered with the heart's mementoes of golden, happy hours. The second is a gentle, velvety kiss, very sweet and pleasant, but vexatiously unsatisfying to an ardent nature, and but little more pronounced than a fascinating cousin would likely bestow. The third is such as coral, tempting, [illegible] lips bestow, for about ten seconds, upon your lips—"a lingering sweetness long drawn out"—that not only takes your breath, but seems to be drawing your very soul from out your body. A fellow may forget his [illegible] and about the time he is receiving such a kiss he is sure to forget it—but the recollection of that unwasted, honest kiss will abide as a source of joy, and be coterminous with life itself.—[Union

To-morrow.

Peace on Earth

Awaits that countless army of martyrs, whose ranks are constantly recruited from the victims of nervousness and nervous disease. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic nervines, pursued with reasonable persistence. Easier, pleasanter and safer this than to swash the victualing department with pseudo-tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and poisons in disguise. "Tired Nature's sweet restorer, balmy sleep," is the providential recuperant of weak nerves, and this glorious franchise being usually the consequence of sound digestion and increased vigor, the great stomachic which insures both is productive also of repose at the required time. Not unrefreshed awakens the individual who uses it, but vigorous, clear-headed and tranquil. Use the bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.

"Dear papa, please don't let me take that horrid castor oil: Frese's Hamburg Tea isn't bad to take, and it always does me a deal more good than that nasty castor oil."

Damiana Bitters regulate the stomach Michel Levy & Co., wholesale liquor dealers agents.

Los Feliz!

ON OR BEFORE JANUARY 20, 1333,
I shall be ready and will offer for sale about
1800 Acres in the Rancho Los Feliz.

☞The tract is the south end of said ranch, and comprises about 1000 acres of tillable, and 800 acres of hill land, nearly all of which overlooks the City of Los Angeles and the Pacific Ocean, and part of it being in the fast-growing town of EDGMMONT.
☞The beautiful foot-hills in Edgemont will be less than one and a quarter miles from the northwest corner of the City of Los Angeles. Situated in the most delightful winter as well as summer climate.
☞The tract is now being subdivided and will be sold (terms most reasonable) as a whole or in lots of from 1 to 100 acres, to suit purchasers.

G. J. GRIFFITH, Proprietor,

South San Jacinto!

Hemet Land Co., Capital $1,000,000. Lake Hemet Water Co., Capital, $2,000,000

---:THE HEMET LAND COMPANY:---

Now offer for sale 7000 acres of the Best and Cheapest Land in California at $150 per acre. Easy Terms. The heart of the magnificent San Jacinto Valley, San Diego County

The only great valley as yet undeveloped and cheap. The richest of soil, abundance of water, and an elevation of 1600 to 1900 feet above sea level, making a climate that is delightfully warm, bracing and dry; the perfect climate for all throat and lung troubles.

The Grandest Water Supply in the State!

Eighteen miles up in the mountains, at an elevation of 4375 feet, a granite dam costing $130,000 is being constructed in Hemet valley, to hold the water which is supplied by the immense snow shed of Mt. San Jacinto, 10,987 feet high, Mt. Tocwish and Mt. Herke. This will form LAKE HEMET, covering 600 acres at an average depth of 65 feet, and containing 6,000,000,000 gallons, or 9000 miner's inches of water, enough to irrigate more than 100,000 acres of land. This water will be delivered in 22-inch iron pipes, under 723 feet fall. An inch of water guaranteed to every eight acres, and water right conveyed with every acre sold.

NO FOGS! NO FROST!

Unsurpassed for the finest Naval Oranges, Raisin Grapes, and all Deciduous Fruits. South San Jacinto will be the city of Northern San Diego County. Broad streets and avenues. In the center is a beautiful hill of 600 acres reserved for a park, upon which this winter 100,000 forest and ornamental trees, already purchased, will be planted, surrounded by a boulevard four miles long, 100 feet wide, with double avenue of trees. Brick hotel, brick offices and stores now being erected. $500,000 to be spent in improvements this coming year. Everything that unlimited capital can do will be done to make a model city.

Climate, Soil, Water and Capital have made Southern California,

and SOUTH SAN JACINTO has them all, as no other one place has. It immediately adjoins San Jacinto 18 miles east of Perris, on the Santa Fe, and 14 miles south of San Gorgonio on the Southern Pacific, and at present reached by daily stages. The Santa Fe is now actually building direct from Perris. Get in before the railroad boom.

For information and prices apply to

HESPERIA.
The Denver of California!

☞HESPERIA IS LOCATED IN SAN BERNARDINO COUNTY, CAL., ABOUT 25 MILES NORTH of San Bernardino, on the Santa Fe R. R. It is about 3,000 feet above the level of the sea, surrounded by the San Bernardino and Hesperia Mountains. Contains 33,000 acres of valley land unrivaled for fruit and vegetables. The climate is delightful throughout the year—the pure, exhilarating mountain air being of surpassing benefit to those afflicted with pulmonary, bronchial or nasal disorders, and a continual pleasure to all who inhale it. Dried fruit will be a leading industry, the climate being perfectly adapted to drying purposes. No fogs. Great abundance of the finest water. Wood fuel plentiful and cheap. A large and elegant Hotel now building. A newspaper established. Business blocks building. Horse-car railway; school houses; sanitarium; bank; parks and boulevards, etc., are but a part of the extensive plans of the Companies. There is a great future for Hesperia. Lands and lots in quantities and at prices to suit purchasers. Circulars, giving full particulars, may be had at any office of the Companies.

OFFICERS—Hon. H. W. Magee, President; S. A. Fleming, Vice-President; Charles A. Barnes, General Manger; Hon. A. H. Lawrence, Secretary; University Bank, Los Angeles, Treasurer.

DIRECTORS—Hon. H. W. Magee, Pasadena; Hon. A. H. Lawrence, Iowa; C. A. Barnes, New York; S. A. Fleming, New York; James Breen, Hesperia; F. N. Myers, Monrovia; C. A. Smith, Los Angeles.

For full information call upon or address: THE HESPERIA LAND COMPANY, or THE HESPERIA WATER COMPANY, Office, No. 19 North Spring Street. ja7-6t

PROVIDENCIA!

17,000——ACRES——17,000

Of the Finest Fruit and Alfalfa Lands.

THE RECORD

Of the Fastest Track-laying Ever Done.

SANTA FE'S NEW TERMINAL.

Many Important Facts Concerning the Railroad World of Southern California.

During the last four months fast track-laying records have been the subject of much discussion among prominent railroad men, and journals all over the world. Some, who pretended to know all about the matter, have denied that the record of ten miles, one thousand two hundred and twenty-four feet was ever made by the Central Pacific Compmy in one day.

The HERALD'S representative has long been acquainted with a gentleman in this city who was in charge of the construction force that made the above mentioned record, which, it is claimed, is the fastest piece of track laying ever accomplished in a single day.

Not long since this gentleman, who is none other than Mr. James Campbell, now Superintendent of the Ballona Harbor Improvement Company, was interviewed by the HERALD'S representative and asked for the details of the work. In answer to the question as to whether or not he was connected with the Central Pacific Company at the time, Mr. Campbell said:

"Yes sir; I was in the employ of the Central Pacific during the construction of that part of the road from Sacramento to Promontory. I was Division Superintendent, and the eastern limit of my division was always at the end of the track, as the road was completed, and I was on the ground all day at the time you mention, in the discharge of my part of the programme."

"How long were you at work, and what was the exact distance laid?"

"We were eleven hours at work and we laid ten miles and two hundred and twenty-four feet of track straight ahead, and one thousand feet of side-track additional, in that time."

"What day was it?"

"It was the 29th day of April, 1869."

"There has been much curiosity as to how it was done, will you tell me?"

"Yes, I know there has been considerable talk about how it was done, and also, that it never was done, but, as I said, I was on the ground and furnished all the material, by trains which were loaded, near the end of the track."

"Each time that I went to the front when the day's work commenced, I carried two miles of material and was unloaded at once, and brought back to the side-track, and another train sent forward and so on, until the work was finished."

"We had twenty small iron-cars to take the rails to the end of the track, from where it was unloaded from the trains. Each of these cars were drawn by two good horses, driven tandem, the driver riding the rear horse. Each car had four men to handle it, as an empty car was always taken off the rails in order to let a loaded one pass. These cars were driven at full speed, and each one was loaded with sixteen rails and spikes and fish-plates sufficient to fasten them down. The ties were hauled by teams. There were eight men selected to lay the rails from the cars at the end of the track, and then eight men handled every rail put down, though there were eight others ready to take their places in case of an accident."

During the forenoon we put in a side-track one thousand feet in length, where I placed the dining cars and water train. At noon all hands took one hour for rest and refreshments.

"Were there any prominent railroad men present?"

"Yes, Leland Stanford and Colonel Charles F. Crocker were present all day and witnessed the whole transaction."

I had two large and strong side boards made to mark the spot and placed one at the beginning and the other at the end of the work. They bore the words, "Ten miles of track laid in one day." Have you ever been to the spot since?

"Yes. Twelve years later I visited the place and found the signboards in a good condition, and I hope the company will protect them with as much care as they will the road itself."

"Did it take much material?"

"Yes, sir, it took quite a number of carloads, as we were using eight cars of rails and ten of ties to each mile."

"This is the greatest feat of track-laying in the world. Our organization was perfect, though our regular organized force for each day's work was only expected to lay five miles of track a day."

"You are connected with the Los Angeles and Ocean Railway Company, now are you not?"

"Yes, sir, I am."

"Then, Mr. Campbell, taking into consideration the short time it took you to lay the above mentioned ten miles of road, how long would it take you to lay the road from this city to Alametos Bay?" asked the HERALD'S representative, with a laugh.

"Well," said Mr. Campbell, I should say a little less than no time."

REDONDO BEACH.

The Prospective Southern Terminal for the Santa Fe Route.

Much gossip has been going the rounds, that the Santa Fe Company was fighting for San Diego against Los Angeles, but, after making a most deligent search for something to confirm the rumor, the HERALD'S representative arrived at the conclusion that there was no foundation in it. While making the investigations however, a most important discovery was made, which has been slightly mentioned in these columns before. It referred to Redondo Beach and it's future as a railroad terminal. The directors of the Santa Fe Company have for a long time been studying how they could get their freight through to San Francisco without turning it over to the Southern Pacific Company at this point, and without going to the additional expense of shipping it to San Diego and then back by steamer to San Francisco. To remedy this, the company decided to build a line of railroad to Redondo Beach, which connects with the Ballona branch at Inglewood and runs down to and upon the pier at Redondo. In conversation with Judge Anson Brunson, of the Santa Fe Company, the HERALD'S representative learned that that company proposed to make Redondo Beach their terminal in Southern California. The following is the substance of the interview:

"I understand your company proposes to 'make' Redondo Beach, Judge Brunson?"

"Well, we think that place is better suited for our purpose than any other on the coast, and of course, we will do our best to make it successful."

"Are you going to work for it against San Diego?"

"We are not working *against* any place, but if we find a point better suited to our purpose, we will do our best to develop it, and in Redondo, we have found such a place and we intend to make it the biggest shipping point on the Pacific coast, except San Francisco."

"As a point, what do you think of it?"

"It is unexcelled; the largest vessel can lie there in perfect quiet and discharge and receive her cargo."

"When that proposed pier is finished you will receive freight direct for San Francisco, will you?"

"Yes, sir, and we will send it there on the Pacific Coast Steamship Company's steamers."

From the foregoing it will be seen that the Santa Fé Company has a big interest in Redondo Beach, and when that company makes an effort to "boom" a place it generally does it. The advantages of Redondo Beach as a shipping point are certainly excellent. Colonel Mendall, the Chief Engineer of the United States Army has been assigned to examine every proposed harbor upon the Pacific Coast, and his report is now finished, and in a day or two will be ready for publication. In it he speeks of the places upon the coast as fine ports, but when he comes to Redondo he lays all others aside and says it is the finest place for a vessel to land at he ever saw.

A company has been organized to build an iron pier 800 feet long which will run into water 40 feet deep. A contract for a wooden pier to answer immediate purposes has been let to the American Bridge and Building Company, and operations will be started upon it at once. This pier will be replaced by an iron one as soon as the piles become worn.

Although it is to be only a temporary structure, it will be the finest one south of San Francisco, Santa Barbara not excepted. It will extend 800 feet into the ocean and will be in the shape of a stick with a fork upon the end. One of these prongs will run out to a depth of thirty-six feet and the other will have a depth of sixty-six feet. On each side of them, the largest ship can be at anchor in perfect safety, as Catalina Island protects it from the winds coming across the ocean and the Los Palos Verdes mountains, at San Pedro, from the southerly gales. It is claimed that there will be no ground swell, as the beach shelves gradually until it gets eight or ten feet deep, when a precipice is reached and a depth of from thirty-six to sixty-six feet is gained. Any one understanding the cause of a ground-swell will at once see that this effectually prevents such a thing at Redondo Beach. On account of the pier being used only for commercial purposes, an iron one 800 or 900 feet long, will run out from the hotel side of the grounds into water twenty-four feet deep. The pier is to be used exclusively for pleasure purposes, and will be the landing place for yacths of every size and shape. It will be modeled after the famous iron piers at Coney Island, Brighton Beach and other resorts on the Atlantic Coast. A matter of present interest is the fact, that, during the late storm there was not a day that the steamer Santa Rosa could not have discharged a cargo at Redondo Beach.

ANOTHER NEW RAILROAD

To Run from Chino to Redondo Beach.

For some time past the people owning property at Redondo Beach and in the country lying between that place and San Bernardino, have been talking of building a railroad running from the latter city to connect with the Pacific Steamship Company's steamers at the Iron Pier. The matter has been most thoroughly canvassed, and all the property owners are quite favorable to it. The idea is to build a railroad "across country" that will open up much valuable land to settlement. Starting at Redondo beach the road will run east past the Cerritos to either Artesia or Norwalk, and perhaps to Whittier, thence through the Chino Rancho to Riverside and San Bernardino. A road with this route would supply a long felt want, and would pay from the beginning. The persons in charge are most thoroughly in earnest and state that it is quite likely the road will be built.

AFTER THE STORM.

Everything Now in Excellent Running Order.

All trains left this city on time yesterday, and both the Atchison, Topeka and Santa Fe and Southern Pacific Companies are now doing their utmost to make up for lost time. The road from this city to San Bernardino has been entirely repaired and no further trouble is expected. A slight washout on the Ballona division was finished early Saturday morning, and trains will run to that place in the future without interruption.

The railroad officials of both companies feel thankful for the present cold spell, as it will prevent the snow on the mountains from melting so fast and to be of considerable damage to their lines, and should the weather remain clear and slightly cold for a few days the snow will all disappear and there will be no cause for fear on that account.

The Santa Fe Company has received a large train load of coal from San Diego and expect to get more in each day.

TO SAN JUAN.

The Road Not Yet Ready For Traffic.

The new division of the Santa Fé Company running from Santa Ana to San Juan-by-the-Sea, has not yet been put into service owing to the late heavy rainstorm. It was expected that trains would run from Riverside through to that place on January 1st. The Escondido branch suffered one or two slight washouts, but is now in a good condition and the trains are running to that place according to the time-table which was published in this paper a week ago. The road to San-Juan-by-the-Sea will be ready in a few days, at the furthest, when passengers can go from this city there without making a change.

And Still They Come.

The following party of excursionists from Rochester, N. Y., arrived at the Hotel Palmyra at Orange on Friday last, having been detained four days on account of the storm. The party left New York on December 27th and came through under the management of C. Z. Culver.

Mrs. Wm. Eastwood, Mrs. Paine Bigelow, Miss M. D. McGuire, Miss L. L. Northrop, Mrs. J. G. Schwendler, Miss Sadie Schwendler, Miss Grace Schwendler, A. M. Schwendler, Rochester, N. Y.; John Jaggar, Mrs. John Jaggar, Mrs. A. C. Hardy, H. G. Clark, H. Cumber, W. W. Williamsoh, Palmyra, N. Y.; A. D. Lewis, E. H. Curtis, Jordan, N. Y.; Mrs. McGuire, Mrs. Barrett, Miss Corrine Barrett, Norwalk, Ohio; D. H. Henry, Geneva, N. Y.; John H. Diver, Honeoye Falls, N. Y.; J. G. Schwendler, conductor.

An Agtomatic Whistle.

Experiments have lately been made on the Pennsylvania Road with an automatic whistle, the object of which is to give the signal at grade crossings, whether the engineer is on the alert or net. The device is simple, consisting of a bar or lever connecting with the whistle and extending down to within an inch of the track. At a point six hundred yards from the crossing a projection is placed which, striking against the lever starts the whistle. Even if the engineer is asleep, the warning is thus fully given.

In Forty Days.

In forty days from now the Santa Fe's extension to Redondo Beach will be open for traffic. Four and one-half miles from that point a large force of men, with 130 teams, are now busily engaged, and it is expected they will soon have everything ready for the ties and rails, which are now at San Diego.

Notes and Personals.

A new depot at Ontaria is being put up by the Santa Fé company.

The Santa Fe's depot at North Cucamonga is now being rebuilt.

A depot is now being put up at Linda Rosa, a new station on the Santa Fé Route.

The Santa Fé company has about finished an elegant little depot at Carlsbad.

A depot at Lordsbrug, being put up by the Santa Fé company, is now about finished.

Mr. William Dunn states that the Santa Fé Company is now free from any freight trouble.

On Monday, the 23d of this month, a vestibule excursion train will leave San Francisco for the East.

The Southern Pacific officials have not yet received any official notification of the increase in the freight rates.

Mr. J. H. Wallace, Division Roadmaster of the Southern Pacific Company, made a flying trip to El Casco Saturday.

The Souther Pacifien Company is handling the delayed freight turned over to them by the Santa Fé, at Deming, as fast as they can find cars to ship it, and soon everything at that place will be clear.

Lately the Kansas Railroad Commissioners decided that when two roads cross each other they must enjoy equal rights and privileges, and the road first built cannot dictate terms to the road which desires to cross its track; also that the first built road cannot claim from the road crossing its track any damage for increased expense caused by the necessity of stopping trains at the crossing.

Have you Heard from Anaheim?

A private letter from Anaheim bears the good news that every thing is boiling hot in that town. A big force of graders from the south is at the scrapers, and pushing things on the new railroad between Buena Park and Santa Fe Springs. The enterprising people who are interested in the new road from the coast to Pomona, via Anaheim and the San Juan y Cajon de Santa Ana Cañon are busy getting ready to grade. The new motor road to Placentia is being graded. Street grading and sidewalk laying is being forwarded at a rapid pace all over the town. A company with ample capital has been formed within a week to put up an electric plant to illuminate Anaheim. Work will go right on. The frame work of the Del Campo Hotel is nearly all up, and the new caravansary will be ready for guests very soon. Following is a list of new blocks and houses going up in Anaheim.

Thoe Reiser's brick block	$14,000
Dennis & White's brick store	4000
Richard Spoerl's new building	3500
Jos. Helmgen's brick store	2000
Geo C. Allen's cottage	2000
Theo Rimpau's residence	6500
T. J. F. Bouge's cottage	1000
R. Luedke's cottage	1500
A. E. Hendrick's residence	4000
Joseph Dauser's cottage	1000
A. E. White's cottage	2000

If any one wishes to see what grows at Anaheim an exhibit of its products may be seen at the office of Mr.. Schaumberger, at 114 West First street, Los Angeles.

One week more before raising the prices of the handsome but cheap lots on the desirable Paterson Tract, on Adams street, now selling per lot for about $400 under adjacent tracts, and much better. Willing to close out the lots if taken now. This is a bona fide chance of immediate and large profit, or for a beautiful home lot at less than market value. For maps, etc., call at 25 W. First street, room 2.

Coleman Flag brand of canned fruits is well and favorably known all over the Eastern States. Sold by all first-class grocers.

Ben E. Ward,

Has moved into his elegant new quarters at 48 North Spring street. Call and see me.

Where is Santa Ana?

Thirty-three miles south of Los Angeles and seven miles from the ocean. Junction of the two great railway systems of the Pacific Coast. Population 6000. The center of the finest and most fertile section of country in California. Biggest excursion of the season, Wednesday, January 11th. You will never regret going. Round trip $1.

Nadeau Park.

Is the best suburban property in the vicinity of Los Angeles. We can substantiate this if you care to investigate the facts. J. W. Gardner, Secretary Nadeau Townsite Company, 210 S. Spring street.

Santa Ana.

The Queen City of the Empire Valley. Grand excursion and auction sale of the Orange Grove Tract, Wednesday, January 11, 1888. Best property ever offered at auction.

Kenilworth Excursion.

Join the excursion to Kenilworth on Wednesday, January 11th. Get a free pass and see the ostriches without an entrance fee. Auction by C. A. Sumner & Co. See full particulars.

WILLIS L. CULVER, of Pavilion, N. Y., says that Gilmore's Magnetic Elixir cured him of a long standing throat and lung trouble. C. F. HEINZEMAN, agent, Los Angeles.

REV. E. J. WHITNEY, of Clarkson, N. Y. says Gilmore's Aromatic Wine for Female weakness, stands without a rival. C. F. Heinzeman, agent, Los Angeles.

CHEAP PROPERTY.

The Latest Ripple in the Boom.

ANAHEIM AROUSING.

The "Mother Colony" Falls Into the Line of Great Improvements at Last.

A HERALD reporter met an Anaheim real estate agent in the streets yesterday and asked how things are moving down at the "Mother Colony." His views are so flattering to his town that they seem worthy of more than passing notice. It seems that the place is astir at every point, and that great things are to be done there and are being done. The Del Compo Hotel is being rushed up with all possible dispatch, the Albrecht Brothers who have the contract pushing things in every way. It is to be finished by the first of February and open for guests. The tract in which it stands is all being laid with cement sidewalks, and the grounds are to be handsomely improved Then the old pioneer, Theodore Reiser, has the plans all out for his big brick block, in which the new opera house is to be. This will be upstairs while below is to be a row of stores.

The graders who were working on the new railroad to Los Angeles when the roadbep was completed to Buena Park were withdrawn and put on at the Los Angeles end of the road. A large force is now working on the Laguna ranch, just southeast of this city. The work is very easy and rapid progress is being made. By Saturday night the grade will be finished to the crossing of the San Gabriel river, and it is hoped that the line will be operating by the end of January all the way to San Diego.

The rush of tourists has found its way to Anaheim in great force. The town is full of them. Houses are so scarce, and there is such a big demand for them that Messrs. Littlefield and Goldthwaite are busy trying to get a lot of handsome cottages finished to supply the urgent demand. The town hotels are full all the time. The reason why so many new comers are flocking in to the old colony, is because they have found out that Anaheim possesses as fine a climate as any other spot in Southern California. During the unusually cold spell which has prevailed here, Anaheim has not felt a chill. Even the nights down there are pleasant and warm. The days are simply delightful beyond description.

Then there is another very substantial attraction which is drawing hundreds of speculators and investors to Anaheim to look at property. That is the price at which property is still being offered. With the best soil in the country, with absolutely the finest water supply in Los Angeles county, and with such a perfect climate, it might be supposed that lands would be held there at fancy prices. But the fact is property has not changed hands there to any great extent. In the early part of the "boom," when the people in other sections were crazy to let go of their realty at ridiculous prices, Anaheim was a thrifty, prosperous and therefore contented community. There was no one in the place who had anything for sale. So the first settlers hold the property still. Now while everything else has changed hands a score of times, and at each transfer at a great increase in price, Anaheim property is not inflated by such a process. It has only just begun to move upward from bed-rock prices. Three years ago it was held far above the range in other localities. Now it is the cheapest in the county. The speculator and investor have learned this fact, and they are now going in in force to grab a piece before the boomers get it too high. Rates are on an up grade and those who bought a month ago are in a position to get some benefit out of their investments. Few of them are, however, in a mood to take advantage of this possibility. They think they see far better things in store for them later on, and instead of selling now most of them are buying more. Where else in the country can the best lands, with plenty of water, be had for $200 an acre. These statements are absolutely true. The lands are the best, the climate is the finest, the water the most abundant, and the price is cheap as this. "Where can you duplicate such a purchase?" said the real estate man. "This $200 an acre land is right in town, near the two depots. I tell you there is nothing like it in Los Angeles county, and the buyers are getting to know this." Thus spoke the enthusiastic Anaheimer, and from what he knows of the matter the reporter is inclined to think he is right. But inasmuch as the reporter is seldom a buyer, Anaheim has little interest in his opinion. It is the crowd of investors who flock in by each train whose views are taken.

These lands can be planted to fruit trees, and at the end of three years they will be paying a net income of $200 per acre. All sorts of fruits flourish in the magnificent soil of Anaheim quite as well as they do in any of the most select spots in this county. Here the orange grows to perfection. Lemons and limes do excellently, for there is not a bit of frost to nip their tenderest buds. All the deciduous fruits, peaches, apricots, plums, apples, pears, figs and walnuts, of superb development and of the finest flavor, are produced in the rich soil all around Anaheim. There is no chance to take about these matters. The orchards in bearing everywhere attest the truth of these statements. Anaheim has churches of all denominations, fine schools and all the elements of culture. There are many fine opportunities to go into paying lines of business in the town. In fact, no person should settle down in this section until he has seen Anaheim.

YESTERDAY'S ROBBERIES.

Thieves Who Safely Eluded Detection with Their Plunder.

Henry Marpleson of 17 East Fifth street reported that some one had stolen from him yesterday, one coat, a pair of pants, blue woolen shirt, one pair of socks and a pair of shoes.

Last night the store of Messrs. Lion & Appenheim, No. 12 Requena street was broken into and 350 cigars stolen, 4 billiard balls, and about $250 in money. The thief or thieves had evidently entered the premises from the adjoining room where they had pried open a trunk and stolen some neckties and several other articles; including two Smith and Weston revolvers.

Mrs. Parker who lives on Tulip street had stolen yesterday from the premises a fine chestnut sorrel mare, 5 year old, with a large scar on the left flank, and a white hind foot.

E. H. Deway, who can be found at White's real estate office on First street, reports that he left some baggage in the city with a friend and went to San Pedro. On Monday last a man named William Walker, a mutual acquaintance, came to the friend and stated that Mr. Deway was at the depot and had sent him (Walker) after the baggage and it was turned over to him. Since then he has not seen him. The trunks contained a fine double-barreled breech-loading shot-gun, laminated steel barrels, English make, ten Calibre; also a russet colored leather valise, two straps, nickel plated, containing a shaving outfit, a lot of underclothing and a number of toilet articles. Also a roll of blankets and a large comforter,

John Wilson was arrested last night on N. Main street by Officer Dunham Wilson had four boxes of cigars in his possession which are probably some of those stolen from the Exchange saloon.

TO INCORPORATE.

San Pedro Citizens Moving in that Direction.

There is a movement on foot to incorporate San Pedro, and this matter will be brought before the attention of the Supervisors at an early date. San Pedro is a place which gives promise of being a thriving city. In fact more business is done there now than in many cities which have been incorporated. It is partly this fact that has brought to the minds of the residents of that city the idea that they should incorporate and posess powers of government by themselves. The matter has been brewing for some time and is at last about to come to a focus. Those who have the interest of San Pedro at heart have determined that it shall take its place by the side of other incorporate towns in the county and there are said to be none of the citizens and property owners there who object to this agreement. Heretofore matters have been allowed to take their own course and and this fact has probably deterred many from investing their money in that township. Once incorporated outside capital will be drawn in faster than it has recently, and the citizens looking at matters in this light are pressing the proposition.

THE CITY HALL.

Ground Broken For the New Building on Fort Street.

Ground has at last been broken for the new City Hall on Fort street, between Second and Third streets. The contract for this was let early in the winter, but the preliminaries attending the settlement of the terms and contract with the architects hung fire until just before the present City Council assumed charge of the city's affairs. The contractor stated that he was ready to go to work, but at the last meeting of the City Council it was stated that there was a building on the lot which the owners had been notified to move This building obstructed the contractor and a resolution was adopted charging $300 per day rent for the ground after to-day. Last night the building was still there, but the contractor had broken the ground by plowing the other half of the lot. This makes it appear that the work is about to go ahead. The contractor has been given a certain length of time to complete the hall and the probabilities are that he will have it ready for use before his time expires.

The Land of Milk and Honey.

The Santa Ana valley is the great producing section of Southern California. The farm, garden and orchard tracts that supply Los Angeles, Arizona, New Mexico and Texas are principally shipped from the town of Santa Ana, the most prosperous town outside of Los Angeles. Fifty splendid lots in the Orange Grove tract, with a lovely modern residence of the most attractive style of architecture and built in the most substantial manner, will be offered without reserve at auction. Grand excursion, Wednesday 11th. Round trip, $1.

A Railroad Center.

Nadeau Park is located right at the junction of the Southern Pacific and Atchison, Topeka and Santa Fe railroads, with the Los Angeles and Ocean railroad, now assured, to connect at the same point, thus securing the most complete railroad facilities out of Los Angeles. Lots for sale by John W. Gardner, Secretary Nadeau Townsite Company, 210 South Spring street.

It is unreasonable for any one to expect to enjoy good health when the blood is impure and sluggish, or thin and watery, because through it the entire framework, brain, bone and muscles receive their nourishment. Frese's Hamburg Tea is admirably suited to remove all obstructions from the bowels, kidneys and bladder, and thus purify the whole system.

Kenilworth.

The special train for the auction sale on Wednesday, January 11th will leave the Sisters' Hospital depot at 10 o'clock. Free tickets. Free gardens and a good time generally. Full particulars at 54 North Main

DIED.

COUTURE—In this city, January 7th at her residence 732 San Fernando street, Mrs. Emerance Leclair, wife of F. Couture.

43,000 ACRES.

Santa Ynez Valley Lands

FOR SALE IN LOTS TO SUIT, FROM 10 ACRES UPWARDS.

THE UNDERSIGNED WOULD RESPECTFULLY CALL THE ATTENTION of intending purchasers to the lands of the Santa Ynez Land and Improvement Company, which is without doubt the best investment in California. These lands can be bought in any quantities desired and are as good for the cultivation of Olives, Prunes, Oranges, Walnuts, Almonds, Grapes, or in fact any fruits or vegetables that are grown in Southern California as any lands in Los Angeles county, and can be bought on reasonable terms and at a very small part of the price that would be asked for the same lands here, so that it offers one of the best opportunities to parties selling out here to reinvest. To Eastern purchasers this is one of the best opportunities to invest in lands that are bound to be worth double the price that are now asked for these within a very few months, as both the Southern Pacific and A., T. & S. F. Railroads have surveyed through the entire tract, which will double the value of these lands as soon as completed past this tract.

Descriptive Catalogue, Maps, Price and Terms furnished on application. Every facility will be given purchasers who would like to visit the tract before purchasing. Vehicles will be on hand to take customers over these lands and everything done to make a visit to this section agreeable.

CALL AT

No. 23 North Spring Street,

FOR MAPS, PRICES AND DESCRIPTIVE MATTER.

☞FREE CARRIAGE AT 9:30 A. M.

FRANK McCOYE

dec11tf

THE FOLLOWING IS AN ADVERTISEMENT OF THE FAMOUS

BARTON RANCH!

BUT EVERY WORD IT CONTAINS IS TRUE!

And any person looking for an investment, or a home, who will do me the favor to go with me to examine the property, if they do not find everything even better than I represent it, I will return their railroad fare and all of the expense of the one day necessary to examine the property. Very respectfully,

W. P McINTOSH,

13 SOUTH MAIN STREET, Los Angeles, Cal.

LOCATION AND DESCRIPTION OF THE BARTON RANCH.

The BARTON is located about 5 or 6 miles southeast of San Bernardino City and is adjoined by REDLANDS on the southeast, LUGONIA on the east, GLADYSTA on the north, TERRICINA on the south and OLD SAN BERNARDINO on the west.

RAILROADS AND MOTOR RAILROADS.

The San Bernardino Valley Branch of the Santa Fe R. R. that runs from San Bernardino to MENTONE, crosses the northern portion of the BARTON RANCH. The Southern Pacific passes ¾ of a mile west of the ranch. The SAN BERNARDINO MOTOR R. R. will run through the center of the Barton ranch and the BUTTON Motor will run along the north line on Colton avenue.

POINTS IN FAVOR OF THE BARTON:

SOIL, red sandy loam, adapted to the successful growing of fine oranges and all other semi-tropical fruits and grapes. The trees are now loaded with oranges, and over 260 tons of grapes were sold in 1887.

THE WATER SUPPLY

Is furnished by the old Mill-creek Zanja that was constructed by the Jesuit Fathers over 100 years ago. Water will be piped to every 40 acres.

CLIMATE.

The climate is dry and healthy, never too cold and very seldom too warm to be comfortable; nights always cool. People suffering with bronchial or any throat or lung troubles are benefitted by living at Barton or vicinity. Fogs scarcely ever drift in that far from the ocean, nearly every day being bright and sunny.

The rainfall will average about 20 inches annually. The mountain and valley view from the Barton has scarcely any equal. There is not enough frost to hurt the most tender fruits. No scale bugs or fruit pests of any kind.

Streets are all graded through the land.

PRICES AND TERMS:

The prices range from $450 to $700 per acre, including water. The ELEGANT VILLA LOTS of one-half acre each, adjoining the hotel, $1000 each, with water, of which there are but 39 altogether. The terms are ⅓ cash, ⅓ in 6 months, ⅓ in 12 months, ¼ in 18 months, ¼ in two years. For Maps and Particulars Apply to

W. P. McINTOSH,

jan1 3m 13 SOUTH MAIN STREET, Los Angeles, Cal.

NILES PEASE,

Furniture AND Carpets!

Having removed to our new store at 243, 245 and 247, South Spring Street, we are prepared to show a fine stock of goods in our line, at the lowest prices

NEWS NOTES.

The hotels are reported to be full and running over.

The City Council will meet this morning at 10 o'clock.

A. A. Bermudas died Sunday morning at the County Hospital, death resulting from injuries received in a runaway on Main street about three weeks ago.

Wm. Feland was arrested last night on Los Angeles street, and Ed. Duffey on Main street, by Officers Auble and McKenxie. Both were booked for petty larceny and are supposed to have helped to burgularize the Exchange saloon.

Louis Righter Brown, a member of the senior class of Yale University, died of malarial fever, at Seneca Falls, N. Y., January 7th, 1888. Deceased was a brother of C. H. and C. B. Brown, of this city.

The newly elected officers of Orange Lodge, I. O. B. B., took place last night. After the installation Rabbi Schreiber, Vice President of the lodge, delivered a very interesting lecture on the "History and Scope of the Order of B'nai B'rith."

Paul Grueninger, who it will be remembered was stabbed by a man named Rich in a saloon on Main street, has been arrested on a warrant, and is now confined at the County Jail, charged with being insane. The complaint was sworn to by his wife.

William Coe, who has been working for the past six months for Mr. Finch, No. 16 South Main street, on Friday disappeared with the horse and wagon of his employer. Coe sold the outfit for $200 to Mr. Berry on Water street, East Los Angeles. Sergeant Jeffries yesterday unearthed the above facts.

A dramatic entertainment was given by the Spanish Society of this city, at Armory Hall, Saturday evening. The hall was crowded with the Spanish elite of this city. "The drama *Pastoral or Shepherd's Play* was rendered with fine effort. At the conclusion of the drama a dance followed which was greatly enjoyed.

Personal Mention.

Major Kern, C. S. A., is at the Pico House.

H. Crawford, of Downey, was in the city yesterday.

J. Saunders, of Pomona, was in the city yesterday.

Al and Byron Leech, of San Francisco, are visiting the city.

Mr. and Mrs. G. W. Abby, of New York, are testing the climate of Los Angeles.

Mr. and Mrs. Chas. Goodyear, of San Francisco, are visiting this part of the State.

Mr. Jesse Jereslaw, one of Los Angeles real estate agents, left yesterday for San Diego.

Judge Sawyer, of the United States District Court at San Francisco, is in the city, and will hold court here to-day.

CLAIMS OF THE BIBLE.

Rev. Dr. Cantine's Discourse at the Fort Street M. E. Church.

Rev. Dr. Cantine discoursed yesterday to the usual large audience which congregates each Sabbath at the Fort street M. E. Church, taking for his text the sixth verse of the twelfth Psalm, "The words of the Lord are pure words; as silver tried in a furnace of earth, purified seven times." You ask me what right the bible has to claim me as an instrument or agent, and what claims it has on this congregation before me.

The first is that of its antiquity. If you go into a large library and you ask the proud possessor what he has new, he may answer, "Nothing." What have you rare? and straitway he goes to the shelves and possibly lays a time-worn volume in your hands. You turn it over carelessly in your hands and demand the value. Five hundred dollars is the response. 'Why it is three hundred years old.' But what is the intrinsic value? 'Age, age, that is all.'

Now if books having no merit in themselves, become valuable by age, what must be the value of this book teeming with precious truths, which has been handed down through the wear of four thousand years. We have the ancient books of India, the writings of Confucius of the Chinese and many others, but what of them. They are mere fragments containg information of small significance and on dusty shelves they perish, eaten by the moth and buried amid dust of centuries.

Of the Bible over eight million copies have been published. Its record of events is relied upon by all the world into whose hands it has fallen. The best literature known to the world has been born of it. Not one of the great works of the master minds of the ages past or present but are founded on the Bible. Where did Dante get his inspiration for his "Inferno," where Milton his "Paradise Lost," where Shakespear his productions, and where the host of others who have furnished their quota to the grand library of literature.

Again the Bible has developed the most perfect civilization known. Popular liberty has always flourished under its shade, and it has poured more happiness into the human heart than all the books together extant.

The history of other systems of religion are full of blood, ours with love. The literary excellence of the Bible is as a glittering pyramid in a desert of sand, when compared with all the most masterly productions that men have produced. In it are found the best models of poetry, history and every namable retorical grace and perfection of language. But stop—consider its themes; God, man, sin, forgiveness, mercy, power and love. There can be no question but that to-day the world hangs on these great themes, and in the Bible they are all exhaustively considered. It involves and deals with the happiness and all that is dear in this life and that of the life to come. Who hath the wisdom to produce such a book? What can you answer, save "God?" There are no contradictions in this book, no matter what the skeptics and infidels have said of it. Their objections and pretended discoveries of incongruities have all faded, and to-day, as never before, the book stands uncontradicted. Science in its search of years has step by step approached nearer and nearer to the great truths set forth in this book of books until now strand after strand of facts demonstrated beyond dispute, have been fastened to this, our bible, until a cable, which the scorn and blasphemy of all the disbelieving world cannot break, has been woven. But we are asked what translation shall we use, what version is nearest the truth? In business transactions when an interpreter is needed we seek one which will render a foreign language in our own tongue and are satisfied, and here I say any of these translations are good enough for me. We have one which has been in our hands until we know every turn of expression. The aged and the youth alike have the precious words familiar on the tongues end. It is the King James translation. It was accomplished by great and learned men and is good enough for me. Where is the author who has escaped criticism? What of the philosophers? Have they withstood the tempest? Have they not perished? And does not the Bible stand to-day in defiance to the world? But some one says the Bible teaches untruths; it teaches that the earth was stationary. It teaches no such thing. When God spoke to His people He meant to be understood just as you would make yourself understood. If a professor of astronomy should ask his pupils to appear at the observatory at the time the moon rose, or as it was setting, they would well understand his meaning; while, if he should direct them to be present at the time when the revolutionary motion of the earth revealed the moon or obscured it, his pedantry would drive him from a sensible community. God was dealing with semi-barbarians, and He wished them to understand Him, and they did. If He had made himself more explicit and explanitary some of us would want a Cyclopedia. Genius is in perfect harmony with all the sciences and this book throughout is full of philosophy. Science and philosophy is constantly changing this. Never can the day come when science can say that the world was not created by God. Newton, the father of them all looks up in reverence, God looks down in awe. Let me beseech you then listen to the Psalms as to a company of angles, to the Evangelists as to the voice of the Lord. In this land the treasures in the bible are the only insurance of property, the only safeguard of character and the only salvation of the soul.

Cricketer's Dinner.

The Los Angeles Cricket Club Saturday night held their first annual supper at the Saratoga Restaurant. The proprietors, T. A. Delay and D. Perry spared no pains in making it a first-class repast, which was evinced by the way the various viands were dispatched. Mr. J. Gardiner ably presided and Mr. A. C. Way took the vice-chair. The repast would satisfy the appetite of the most fastidious and Messrs. Delay and Perry were universally praised as to their provisions. The chairman, Mr. J. Gardiner in an eloquent and pithy speech referred to the absence of Dr. Gresham (the President), but in his place Mr. Gardiner did the table full honors. After the munificent repast, toasts were indulged in, including the President, the Queen of England, the Los Angeles Cricket Club and the Press. Altogether a very enjoyable evening was passed and the Club hopes that 'ere long another of the same sort will be held.

CATARRH!

Throat Diseases, Bronchitis, Asthma, Consumption,

Together with Diseases of the Eye, Ear and Heart Successfully Treated by

M. HILTON WILLIAMS, M. D. M. C. P. S. O.

273 N. MAIN STREET,

A few doors south of the New Post Office, Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved medicated inhalations, combined with proper constitutional remedies for the liver, stomach, blood, etc.

CATARRH.

The term Catarrh is applied to a peculiar disorder of the nostrils and adjacent parts which prevails to an alarming extent, and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent or muco-purulent, greenish yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fœtid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others, a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with ghish tenacity. Its frequent embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat so as to reject it by the mouth. This practice, popularly known as "hawking," is characteristic of Catarrh, and proves as embarrassing to the one affected, as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by the way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts and not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, if intense, may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrefies, giving rise to a stench which is really overpowering, and sufficiently fetid to poison the atmosphere of a whole room, and there are others in which all secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat, and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above, and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temples, on the top of the head, at the back of the neck, or behind the orbits, and, occasionally, pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable snuffling sensation in the head, and occasionally to violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffling quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "hem" more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others again speak of a constant bad or nauseous taste in the mouth and throat.

The stomach generally suffers more or less and becomes weak and irritable; the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times, fearful, timid, agitated, and inclined to drowsiness and sleep; the memory weakened, and permanent impairment seriously threatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and, in spite of the utmost care, becomes affected from the slightest causes, so that at last a breath of wind upon the lining of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse, and involving a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larynx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the Stomach, Bowels, Kidneys, &c.

Thus catarrh becomes the starting point of consumption development, the disease being eventually transmitted to the lungs, both by nervous connection and continuity of surface.

So frequently has this fatal course been noticed that all those who are thoroughly conversant with the subject now look upon catarrh as a premonition and one of the very earliest manifestations of consumption.

Inhalations are applicable in all diseases of the respiratory organs, but must be prepared for each individual case as they severally require.

Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success. The very best references from those already cured.

CONSULTATION FREE.—Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but, if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions Address
